Choose between LED and xenon illumination in your otoscopes

LED Illumination

» Uniform illumination of the examination field in pure white light

» LED illumination shows colors as they really are, which is helpful for efficient diagnosis

» 100,000 lifetime hours per bulb, meaning less replacements and lower replacement cost over time

Xenon Illumination (XL)

» Xenon illumination has a yellower tint to the lighting

» Offers between 20,000 and 30,000 hours per bulb

Disposable Blood Pressure Cuffs and Connectors

» Medline's single patient use cuffs are made from a soft, comfortable woven polyester fabric

» Each cuff has rounded corners and finished edges for optimal comfort

» Hook-and-loop closures ensure a lasting and snug fit for every patient

» Cuffs come in a wide range of infant to adult sizes, each color-coded for convenience. All sizes meet the American Heart Association recommendations for accuracy

» A complete line of connectors and adapters connect cuffs to virtually every non-invasive blood pressure monitor

Choosing the Right Size Cuff

The chart below will help you determine the correct cuff size based on the patient's upper arm circumference. Please note that if you choose a cuff that is not the appropriate size, readings may not be accurate.

BioCon 750 Bladder Scanner with BladderPoint

Real-Time Bladder Targeting
Quickly and confidently locate the bladder for accurate measurement.
You shouldn't have to do multiple scans to get an acceptable result. BioCon 750 makes it easier than ever to find the bladder with two industry-firsts:
» Proprietary BladderPoint™ technology puts a bull's-eye in the middle of the bladder
» Pre-scan shows a live view of the ultrasound image right from the start

Dependable Performance
Reliability is designed into every BioCon 750.
» Standard five-year warranty includes drop protection
» Built-in self-diagnostics alert you of any hardware or maintenance issues
» Tough polycarbonate casing promotes robust and uninterrupted service

Versatile Care
Accommodates various patient populations.
» One-click, 360-degree measurement requires no probe rocking
» Probe has a rear grip for easier use on bariatric patients
» Can be used on pediatric patients

Staff Convenience
With BioCon 750, bladder scanning is quick, simple and efficient.
» Data and images can be easily uploaded to any EMR system
» Integrated thermal printer provides documentation at the push of a button
» Onboard training guide walks staff through scanning technique

New aluminum shell for added probe protection

BioCon 900 Ultrasonic Bladder Scanner with Printer

Real-Time Bladder Viewing

Easily locate the bladder position for accurate measurement. You shouldn't have to do multiple scans to get an acceptable result. BioCon 900 makes it easier to find the bladder with two industry-firsts:

» BladderPoint™ technology puts a bull's-eye in the middle of the bladder
» Pre-scan shows a live view of the ultrasound image

Built-In Versatility

Bladder scanning is quick, simple and efficient.

» Measure bladder volume in 3 seconds
» Increased scan depth to industry best **230 mm** for individuals with higher BMIs
» Data and images can be easily uploaded to your EMR system or printed from integrated printer
» Less cleaning necessary for contact isolation patients

Dependable Performance

BioCon 900 features self-diagnosis and five-year warranty.

» Durable probe construction helps minimize the chance for damage
» **Five-year** warranty with drop protection coverage comes standard
» Self-diagnosis quickly tells you if the probe is working correctly
» No calibration required

Industry-Leading Support

We provide ongoing education, training and service throughout the device's lifespan.

» Staff is trained on how to use the equipment through online videos, competency testing and onsite in-servicing
» Toll-free technical service hotline: 1-866-274-2131
