218RAFPS	18" width, removable padded full arms, swing-away footrests
218RAFPE	18" width, removable padded full arms, elevating legrests
220RADPS	20" width, padded desk arms, swing-away footrests
220RADPE	20" width, padded desk arms, elevating legrests
220RAFPS	20" width, padded full arms, swing-away footrests
220RAFPE	20" width, padded full arms, elevating legrests

Breezy EC® Wheelchairs

As the world's leading manufacturer of custom mobility products, Sunrise Medical knows wheelchairs.

We also know that for basic patient transportation needs your requirements are different. You need wheelchairs that have been **designed with durability** in mind to provide years of trouble-free service at a cost that maximizes the return on your investment.

You also require choices— **choices** in style, size, features and configurations to accommodate all of your customers' needs, as well as a choice of suppliers.

Seven Breezy EC models, covering the spectrum from basic to high-strength, lightweight chairs establish the Breezy EC family as the best combination of **quality, selection and value.**

Breezy EC 2000HD Heavy-Duty

Extra wide seat widths and reinforced construction accommodate special needs.

Features

- Heavy-duty reinforced chrome steel frame supports weights up to 450 lbs.
- Seat widths of 22" or 24" accommodate larger users.
- Durable, double-embossed vinyl upholstery
- Swing-away footrests or elevating legrests with padded calf
- Oversized chart pocket
- Choice of aluminum swing-away footrests or elevating legrests and padded full or desk armrests

Models

2HD22RADPS	22" width, padded desk arms, swing-away footrests
2HD22RADPE	22" width, padded desk arms, elevating legrests
2HD24RADPS	24" width, padded desk arms, swing-away footrests
2HD24RADPE	24" width, padded desk arms, elevating legrests

Breezy EC 4000 High-Strength, Lightweight

Durability in a lightweight design and unique options make this the most versatile EC model.

Features

- Frame design eliminates seat guides and allows for easy installation of custom backs and accessories
- Flip-back arms with an easy release mechanism
- Weighs 33.5 lbs without riggings
- Meets requirements for K0004 Medicare funding
- Height adjustable seat back (16"/17"/18")

Models

416RADPE	16" width, padded desk arms, elevating legrests
416RADPS	16" width, padded desk arms, swing-away footrests
418RADPE	18" width, padded desk arms, elevating legrests
418RADPS	18" width, padded desk arms, swing-away footrests
420RADPE	20" width, padded desk arms, elevating legrests
420RADPS	20" width, padded desk arms, swing-away footrests

Breezy EC 3000 Lightweight

A value-priced lightweight design to meet today's funding requirements.

Features

- Weighs 35 lbs without riggings meeting requirements for K0003 funding
- Scratch-resistant composite handrim
- Durable chrome-plated, carbon steel frame
- Dual axle allows seat to be easily adjusted to hemi height
- Removable desk arms with padded armrests
- Comfortable padded nylon upholstery
- Industry-compatible swing-away footrests or elevating legrests

Models

JAY® Seating Options

Make sure your customers get the comfort they deserve.

* Medicare beneficiaries that qualify for a wheelchair also qualify for a general use seat cushion (E2601/E2602) and a general use wheelchair back cushion (E2611/E2612). The use of these products provides better sitting tolerance and comfort.

JAY® Basic Cushion

The Jay Basic provides a soft and durable support for clients with mild postural needs who are at low risk for skin breakdown. The Jay Basic Cushion has been code verified by SADMERC to meet the requirements of E2601/E2602.

- Beveled to fit between the seat rails on wheelchairs with seat upholstery.
- Durable molded foam provides mild contouring for increased sitting tolerance and postural stability
- Provides stability to reduce sliding and shearing
- Available for chair widths 14" to 24".

Dual axle

Allows seat to be easily lowered to hemi height. Available on 2000, 3000 and 4000 models

Chart pocket

Included on 2000 and 2000HD models.

Quick-release flip-back arms

Make transfers easy. Available on 4000 models.

Height adjustable back

Included on 4000 models.

JAY® Basic Back

The Jay Basic Back has been redesigned to easily adapt to standard wheelchairs. Choose strap-style hardware for easy attachment - just strap around wheelchair back canes. The clamp-style hardware provides 0° and 8° of angle adjustability and snaps easily into place.

- Designed for clients with mild postural needs
- Provides mild posterior pelvic-stabilization and thoracic support
- Three height options provide a more personalized fit
- Lightweight for improved propelling efficiency and easy transport
- Lightweight, contoured, aluminum shell and soft foam insert

* An order for each item billed must be signed and dated by the treating physician, kept on file by the supplier, and made available to the DMERC upon request. It is advised that the order for the seat and back cushions be obtained at the same time as the order for the wheelchair to avoid claim processing errors.
