# Better healthcare

through innovation,  
collaboration and  
transformation

Philips is a health technology company focused on improving people's lives through meaningful innovation across the health continuum – from healthy living and prevention to diagnosis, treatment and home care. Applying advanced technologies and deep clinical and consumer insights, Philips partners with customers to deliver integrated solutions that enable better outcomes at lower cost.

At Philips, we look beyond technology to the experiences of patients, providers and caregivers across the health continuum, from healthy living to prevention, diagnosis, treatment and home care. We unlock insights leading to meaningful innovations from hospital to home. Our integrated solutions – comprising systems, smart devices, software and services – combine broad and deep clinical expertise, technology and services, actionable data, consultative new business models and partnerships. Together, with our customers, we can transform how care is delivered and experienced.

# Sleep diagnostics

Whether you're considering new PSG systems, home sleep testing systems, titration systems, sensors, integrated scoring solutions or other diagnostic tools, we can help you with our full line of diagnostic products, services and solutions. When choosing our diagnostic hardware, we include Sleepware G3 software, unlimited software licensing, a lifetime of core software updates, a starter sensor kit and more to help support and accommodate your business needs.

Not all products are available in all countries. Check with Philips Respironics customer service or your local distributor.

# Introduction

Philips Respironics is a market leader of sleep products, offering exceptional service, expert support and innovative devices for more than 30 years. We are committed to helping sleep centers improve their operational efficiencies and patient care.

## **Dependable support**

Our clinical specialists understand, and are focused on the needs of sleep professionals. Our technical and product support representatives answer customer calls **24/7, 365** days a year. You'll find that your questions get answered and your problems get solved.

## **Comprehensive product line**

We cover your diagnostic needs, in and out of the lab with:

- **Alice** in-lab PSG and home diagnostic systems for routine to advanced sleep solutions
- A powerful and unified **Sleepware G3** software platform for PSG and HST
- **Somnolyzer** clinically validated, computer-assisted scoring system
- A full-line of **Pro-Tech** quality sensors, including zRIP effort sensors

## **Peace of mind**

We keep things easy and uncomplicated and offer benefits designed to help you enhance your business and improve operational efficiencies.

Enjoy advantages such as:

- One, unified software platform for PSG and HST testing
- Open-site software licenses
- All software updates included
- 24/7 365 product and technical support

As a supplier of sleep diagnostic and therapy solutions, we are committed to you and your patients night and day.

Alice PSG systems are reported to be the most utilized PSG system In the US.\*

# In-lab diagnostic systems

**Philips Respironics Alice 6 PSG systems** allow your staff to perform routine or full-featured studies while focusing more on patients and less on equipment. All Alice 6 PSG and HST systems are powered by **Sleepware G3** so your staff can efficiently gather and analyze the data you need, without needing to switch between multiple software programs.

#### **Alice 6 LDx with the LDxS or LDxN headbox**

The Alice 6 LDxS is the perfect front-line PSG system for most sleep center needs. Place the Alice 6 LDxN into use when you need to step up to a full 32 EEG inputs. Either headbox works with the LDx base station.

- LDxS headbox (19 EEG inputs)
- LDxN headbox (32 EEG inputs)
- Integrated RIP driver
- Dedicated differential pressure transducer
- Patented automatic chin EMG re-referencing
- 7 ECG channels
- Up to 500Hz recording, with 2,000Hz sampling
- Continuous impedance values available during and post-acquisition
- Digital connection to OmniLab Advanced + titration device and ETCO2 LoFlo device, eliminating the need for external calibration
- Two year product warranty

**Alice 6, Base Station System, LDx, N.A.**  
**1063314**

**LDxS Headbox**  
**1063552** North America  
**LDxN Headbox**  
**1063476** North America

#### **Alice 6 LDe**

The LDe provides busy labs with the essential features for performing routine PSGs. The headbox perfectly balances a compact form factor with easy-to-identify and easy-to-use inputs.

- Up to 500Hz recording
- Integrated RIP driver
- Dedicated differential pressure transducer
- Automatic chin EMG re-referencing
- One-year warranty

**Alice 6, Base Station System, LDe, N.A.**  
**1063311**

**LDe Headbox**  
**1063549** North America

\*2016 Philips sponsored market study.

See why US sleep labs choose Philips Alice PSG systems more than any other system\*.

# Get peace of mind with our PSG systems

We have your long term financial needs in mind. We know that overall cost of ownership matters to you most, so our Alice PSG bundles take that into consideration by helping you control longterm costs and reduce unplanned expenses. Our goal is to provide you the best technology and value in the industry.

#### Included with Alice 6 purchase

- Unlimited software updates
- Unlimited site licensing
- 24/7/365 product and technical support
- Custom installations and on-site training
- zRIP DuraBelt Starter sensor kits
- Loaner systems (while under warranty) included with most packages
- Two-year product warranty on Alice LDx systems (one year with Alice LDE)
- Four hours of custom report writing per site

\*Taken from Sleep Dx Portfolio Guide

Looking to replace your old, unreliable PSG system? Comprehensive upgrade bundles are available. Contact your local Sales associate or email [sleep.diagnostics@philips.com](mailto:sleep.diagnostics@philips.com) for a comparative quote or demo.

## OmniLab Advanced +

Multi-mode titration system and accessories

With nine therapy modes, a quiet platform, customizable reports, user-friendly features and value-added benefits, you'll find the OmniLab Advanced + to be an ideal system for satisfying your lab titration needs. Along with OmniLab Direct and OmniLab Connect, the OmniLab Advanced + system provides a cohesive, harmonized solution to help you and your sleep technicians operate titration studies efficiently, easily and intuitively.

Description	Part no.
OmniLab Advanced + with Heated Tube humidifier	1111124
A Series humidifier	1111551
Water chamber	1063785
System One Heated Tube, Performance Tubing (22mm)	1032907
OmniLab Connect (for use with non Philips Respironics PSG systems)	1111076
OmniLab Direct (lab titration software)	1112033
Link Module	1061644A
Serial Cable DB9 Female to Male 6ft	1037268

**OmniLab Advanced + has the highest usage of lab titration devices in U.S. sleep labs.\***

\*2016 Philips sponsored market study

Attention all current Synchrony, OmniLab, and OmniLab Advanced titration device users. These devices will not be serviceable after December 31, 2018. Contact your sales associate in regard to updating to OmniLab Advanced + before time runs out.

# LoFlo EtCO<sub>2</sub> capnography sensor

Our LoFlo plug and play device offers a streamlined approach to canography by using a single USB connection to Alice 6. The connection is digital, so no DC calibration is necessary. This small, whisper quiet, convenient and easy to-use device allows for simultaneous monitoring of flow and CO<sub>2</sub>.

- No calibration required
- Uses an innovative sample cell and filter

Description	Part no.

# Alice NightOne

## Home sleep testing

The Alice NightOne home sleep testing solution combines ease, comfort and reliability to support your business, clinical and patient needs. With features and functions designed with patients in mind.

### Key benefits

- “Auto-on” feature
- RIP with integrated buckle design
- Unique “smart guide” patient setup sequence
- Enhanced Good Study Indicator
- Body Position sensor built-in
- Powered by Sleepware G3 software
- Optional Cloud services
- Bluetooth connectivity to System One or Dream Station therapy devices to record therapy channels

### Alice NightOne includes:

- Alice NightOne device
- Hard shell carrying case
- Nasal cannula sample pack
- zRIP effort belt
- Oximetry module
- SpO<sub>2</sub> sensor (sensor style selected upon order)
- USB cable
- Quick Start guide, user and provider manuals
- Sleepware G3 software
- Unlimited software updates and site licensing
- Two-year device warranty

### Included is a choice of one of the following:

- 936 SpO<sub>2</sub> Sensor (Finger Clip)
- 953 SpO<sub>2</sub> Sensor (Flex)
- 954A Adult Flexwrap (Disposable for use w/953 sensor, 25 pack)
- 1062049 Reusable Finger Sensor (Soft), Large
- 1062050 Reusable Finger Sensor (Soft), Medium
- 1062051 Reusable Finger Sensor (Soft), Small

# Alice PDx

## Home sleep testing

Alice PDx is a portable at-home diagnostic recording device for OSA screening, follow-up, and diagnostic assessment of cardio-respiratory sleep disorders. The system satisfies the AASM/CMS HST device guidelines and enables basic screening to comprehensive diagnostic evaluation. The Good Study Indicator conveys the amount of good quality data collected overnight to help you avoid or reduce the costs associated with retesting.

# Unified software

**Sleepware G3** with Somnolyzer is one software interface with multiple workflow benefits. Sleepware G3 is flexible and highly adaptable and its intuitive interface and user-friendly functions are designed to help enhance your workflow and customization preferences. Sleepware G3 allows you to have one, unified software platform for your PSG and HST needs, helping to improve your operational efficiencies.

## Sleepware G3 features

- Supports all Alice 6 PSG and HST devices
- Integrated with clinically validated Somnolyzer\* assisted scoring
- Multi-part queries with interfacing database
- Meets AASM requirements for a sleep lab database
- Define unique workspaces to suit individual and workflow requirements during acquisition, scoring and physician reviews
- Unique composite channels for BiPAP autoSV and AVAPS display and support
- Supports HL7, Citrix and Cloud services
- Portable Device Manager helps you manage your portable device fleet

## Sleepware Bedside Assistant

From anywhere in the sleep lab with wireless connectivity:

- Displays live waveforms at bedside
- Helps with workflow efficiencies when performing impedance checks, bio-cals, or checking patient status in a room
- Displays live video for each patient room
- Controls OmniLab Advanced + titration device for each room
- Mark Lights/On and Lights/Off

## Composite channel for BiPAP autoSV

\*Somnolyzer is a fully integrated computer assisted sleep scoring system within Sleepware G3 and is an available option with a per-use license activation.

**Reminder:** For added value, unlimited software updates for supported platforms and site licensing are included with all PSG and HST devices

### Somnolyzer scoring solution

- **Somnolyzer increases lab efficiency by reducing the time spent on manual scoring**
- **Somnolyzer can analyze both PSG and HST recordings**
- **Integration with Sleepware enables real-time scoring**  
During an in-lab PSG study, Somnolyzer will provide real-time, high quality staging and event scoring. As Somnolyzer applies staging and scoring, the night tech can easily track an ongoing tally of sleep efficiency and sleep time as well as event summaries such as RDI, AHI, and leg movements.
- **Simple to interpret confidence trend or “traffic light” system**  
Sleepware with Somnolyzer uses straightforward green, yellow, and red indicators to show where it has high, medium or low confidence in its’ scoring, allowing the expert reviewer to focus their expertise on where it is needed the most.
- **Same scoring rules as human expert to allow for validity**  
Somnolyzer recognizes sleep characteristics — spindles, eye movements and delta waves — and applies the same decision process to staging and event scoring as a human expert would. The Somnolyzer’s scores are indistinguishable from those of a human scorer.
- **Diminishes interscorer variability for increased reliability**  
Somnolyzer scoring, along with a structured expert review, diminishes inter-scorer variability.
- **Follows R&K or AASM standards to deliver excellent results**  
Patient results are compliant with the latest professional guidelines.
- **Follows current AASM standards**, receiving the highest evidence score in the paper ‘Digital Analysis and Technical Specifications’ (Penzel et.al, 2007)

Somnolyzer is fully integrated within Sleepware G3, and is an available option with a per-use license activation.

# Somnolyzer

now integrated with Sleepware G3

Somnolyzer from Philips Respironics is a clinically validated, computer-assisted sleep scoring system designed to help simplify and improve sleep study scoring productivity, accuracy, and consistency. By reducing the time sleep technicians spend on studies they are free to work on other important lab activities. Validated for both PSG and HST studies.

Somnolyzer sample screen capture

# Actigraphy

Actigraphy Motion Biosensor complement technology provides measurement to help assess the sleep/wake patterns of a variety of patients with various sleep complaints. Motion Biosensors can serve as a or adjunct to a polysomnogram or subjective paper diary. Our devices help you gain insight into real-world sleep/wake and daytime activity. Data collected by Motion Biosensor devices have a variety of applications in sleep medicine and sleep disorder, circadian rhythm disorder, and daytime activity research.

#### Actiwatch Spectrum Plus

- Sleep/wake patterns
- Real time subjective scoring
- Multiple light measurements
- Event markers
- Off-wrist detection

#### Actiwatch 2

- Sleep/wake patterns
- Light sensor measurement
- Event markers
- Well-suited for use with younger subjects or those sensitive to wrist-worn devices

#### AASM Recommendations

- Use of Actigraphy in evaluation of sleep disorders
- Use of Actigraphy in assessing the response to therapy of Sleep Disorder
- Use of Actigraphy prior to MSLT in treatment of Narcolepsy
- The MSLT should be preceded by at least one week of actigraphic recording with a sleep log to establish whether the results could be biased by insufficient sleep, shift work or another circadian sleep disorder.

### Analyzing an irregular sleep schedule vs. a normal sleeper with Actiwatch

The patient data on the left demonstrates rhythmicity in a sleep pattern during irregular sleep periods.

Look for rest interval start and end times.

Insomnia patient (68 yr. F)

Control subject (78 yr. F)

# Pro-Tech quality sensors

Make sure you're getting high-quality performance sensors from a market leader. Our innovative Pro-Tech sensors detect a variety of sleep parameters and meet important accreditation standards.

## Respiratory effort sensors

Our affordable zRIP technology provides true breathing movement tracings with no false paradoxing, and signals for the detection of respiratory effort.

- zRIP DuraBelt inductive respiratory effort sensors
- ezRIP combination module/wireset sensor
- Piezo respiratory effort sensors

## Pressure transducers

Our PTAF2 is a pressure-based transducer designed to generate accurate respiratory signals.

- PTAF2 airflow pressure transducer

## Airflow sensors

Pro-Flow and Pro-Flow Plus cannulas are designed to provide optimal performance and patient comfort.

- Cannulas – Pro-Flow, Pro-Flow Plus, and MultiPurpose are all high performance cannulas that meet a variety of patients' needs

## Thermal airflow

Our comfortable and easy-to-place thermo-couples and thermistors are compatible with most major PSG systems.

- Thermal airflow sensors are available in disposable and reusable versions

## LoFlo EtCO<sub>2</sub>

Our LoFlo plug and play device offers a streamlined approach to canography by using a single USB connection to Alice 6.

The connection is digital, so no DC calibration is necessary.

This device small, whisper quiet, convenient and easy-to-use device allows for simultaneous monitoring of flow and CO<sub>2</sub>.

- No calibration required
- Uses an innovative sample cell and filter

# Pro-Flow and Pro-Flow Plus

## Nasal cannulas

- Designed to enhance nasal and oral signal transfer
- Soft and narrow nasal prongs help reduce nasal resistance and increase patient comfort
- Incorporate narrow kink-resistant tubing to help facilitate excellent response to high-frequency signals such as snoring
- Hydrophobic, anti-microbial inline filter
- Pediatric and adult sizes

Description	Part number
Pro-Flow, nasal, adult, 7', (60 per case), male luer lok	P1259
Pro-Flow, nasal, adult, 7', (10 pack), male luer lok	P1301
Pro-Flow, nasal, adult, 8.25", (60 per case), male luer lok	P1306
Pro-Flow, nasal, adult, 8.25" (30 per case)	P1308
Pro-Flow, nasal, adult, 16", (60 per case), male luer lok	P1328-60
Pro-Flow, nasal, adult, 16", (5 pack), male luer lok	P1390
Pro-Flow, nasal, adult, 7', (10 pack), no filter, male luer lok	1091077
Pro-Flow, nasal, adult, 7', (60 per case), no filter, male luer lok	1091078
Pro-Flow, nasal, pediatric, 7', (60 per case), male luer lok	P1263
Pro-Flow, nasal, pediatric, 7', (10 pack), male luer lok	P1302
Pro-Flow, nasal, pediatric, 16", (60 per case), male luer lok	P1381
Pro-Flow, nasal, Cannula, 8.25" (30 per case), no filter	P1334
Pro-Flow, nasal, pediatric small, 7', (60 per case), male luer lok	P1267
Pro-Flow, nasal, pediatric small, 7', (10 pack), male luer lok	P1303

# Pro-Flow Plus

## Nasal/oral cannulas

- Addresses monitoring of mouth-breathing patients
- Oral prong detects pressure changes in the mouth
- Pediatric and adult sizes

Description	Part number
Pro-Flow Plus, nasal/oral, adult, 7', (30 per case), male luer lok	P1295
Pro-Flow Plus, nasal/oral, adult, 7', (5 pack), male luer lok	P1300
Pro-Flow Plus, nasal/oral, adult, 8.25", (30 per case), male luer lok	P1308
Pro-Flow Plus, nasal/oral, adult, 8.25", (30 per case), no filter, male luer lok	P1334
Pro-Flow Plus, nasal/oral, adult, 1.1M, (10 per case), male luer lok	P1319-10
Pro-Flow Plus, nasal/oral, adult, 16", (30 per case), male luer lok	P1343
Pro-Flow Plus, nasal/oral, pediatric, 7', (30 per case), male luer lok	P1354

Description	Part number
<b>Pro-Flow MultiPurpose nasal cannulas</b>	
Pro-Flow MultiPurpose, nasal, adult, 7', (30 per case), male luer lok	P1350
Pro-Flow MultiPurpose, nasal, adult, 7', (5 pack), male luer lok	P1368
Pro-Flow MultiPurpose, nasal, pediatric, 7', (30 per case), male luer lok	P1346
Pro-Flow MultiPurpose, nasal, pediatric small, 7', (30 per case), male luer lok	P1348
<b>Pro-Flow Plus MultiPurpose cannulas</b>	
Pro-Flow Plus MultiPurpose, nasal/oral, adult, 7', (30 per case), male luer lok	P1373
Pro-Flow Plus MultiPurpose, nasal/oral, pediatric, 7', (30 per case), male luer lok	P1366
<b>Cannula accessories</b>	
Cannula adapter kit, female luer thread style on 1/8 inch tubing	P1324
Double-port CPAP titration kit Kit contains: 12 cannula titration filters, 2 male luer loks, 2 circuit connection ports, small bore connecting tubing	P1327
CPAP titration kit, Alice PDx, connects CPAP circuit to PDx via male luer lok	P1391
Cannula or titration filter, (50 pack), male and female luer lok	P1107
Cannula or titration filter, (10 pack), male and female luer lok	P1109
Pro-Wrap, 100 Pro-Wrap per roll, no active sensor	P1162
Pro-Flow sample pack, includes P1259 (qty: 2) and P1295 (qty: 2)	P1258

### Pro-Flow MultiPurpose and Pro-Flow Plus MultiPurpose cannulas

- Designed to concurrently monitor airflow and end-tidal CO<sub>2</sub>
- Provides ability to monitor three parameters (airflow, snore, and EtCO<sub>2</sub>) with one patient interface
- Can be used with most pressure transducers and continuous sampling capnographs
- Hydrophobic, anti-microbial inline filter
- Pediatric and adult sizes

## Thermal airflow

### Thermocouples and thermistors

- Compatible with most major PSG systems
- Ability to monitor oral/nasal separately and/or together with adult and pediatric sizes and disposable thermocouples
- Insulated tips
- Six-month warranty

Description	Part number
<b>Reusable thermocouple (cannula style)</b>	
Thermocouple nasal/oral airflow sensor, 1 channel, adult, 1.5mm connectors	P1222
Thermocouple nasal/oral airflow sensor, 2 channel, adult, 1.5mm connectors	P1224
Thermocouple airflow sensor, 1 channel, adult, binder connector	P1757
Thermocouple airflow sensor, 1 channel, adult, binder connector	P1758
Thermocouple nasal/oral airflow sensor, 1 channel, pediatric, 1.5mm connectors	P1223
Thermocouple airflow sensor, 1 channel, pediatric, binder connector	P1759
Thermocouple airflow sensor, 1 channel, pediatric, binder connector	P1760
Thermocouple nasal airflow sensor, 1 channel, pediatric small, nasal bridgemount, 1.5mm connectors	P1214
Thermocouple airflow sensor, 1 channel, pediatric small, binder connector	P1761
Thermocouple airflow sensor, 1 channel, pediatric small, binder connector	P1762
<b>Disposable thermocouple</b>	
Reusable wireset	P1238
Disposable thermocouple nasal/oral airflow sensor, adult, (10 pack), 1.5mm connectors	P1242

Description	Part number
<b>Reusable thermistor</b>	
<b>Alice 3</b>	
Thermistor, 1 channel, nasal/oral, adult, 2.5 connector	P1246
Thermistor 1 channel, nasal/oral, pediatric, 2.5mm connector	P1298
<b>Alice 4</b>	
Thermistor, 1 channel, nasal/oral, adult, LEMO triaxial connector	P1286
<b>Alice 5</b>	
Thermistor, 1 channel, nasal/oral, adult, 1.5mm connectors	P1274
Thermistor 1 channel, nasal/oral, pediatric, 1.5mm connectors	P1336
Thermistor 1 channel, pediatric small, nasal bridgemount, 1.5mm connectors	P1337
<b>Alice 6</b>	
Thermistor, 1 channel, nasal/oral, adult, 249 connector (2-pin keyhole)	1078754
Thermistor, 1 channel, nasal/oral, pediatric, 249 connector (2-pin keyhole)	1078755
Thermistor 1 channel, pediatric small, nasal bridgemount, 249 connector (2-pin keyhole)	1078756
Thermistor, oral, adult, 249 connector (2-pin keyhole)	1078757
<b>Alice PDx</b>	
Thermistor airflow, nasal/oral, adult, Alice PDx, 2.5mm connector	P1388
Thermistor, oral, adult, Alice PDx, 2.5mm connector	P1379
<b>Other</b>	
Thermistor, 1 channel, nasal/oral, adult, Sandman SD20, 220 connector (black)	P1364
Thermistor, 1 channel, nasal/oral, adult, Embletta, 249 connector (2-pin keyhole) (gray)	P1274-249
Thermistor, 1 channel, nasal/oral, pediatric, Embletta, 249 connector (2-pin keyhole) (gray)	P1298-249

## Pressure transducers

### Thermocouples and thermistors

- Designed to generate accurate respiratory signals
- Includes high-level and low-level outputs, unfiltered or filtered airflow output, snoring output, and remote-control options
- Used in AC or DC configurations and during CPAP titrations
- One-year warranty

Description	Part number
<b>PTAF2</b> PTAF2 (kit contains: PTAF2 module, a 9V battery, and one P1258 cannula sample pack)	P1287
<b>PTAF2 cables</b>	
High level cable, 7', 1/8 male connector	P1078
High level cable, 7', 1/8 female connector	P1079
High level cable, 7', 3/32 male connector	P1080
High level cable, 7', 1/4 male connector	P1081
High level cable, 7', 3.5mm connector	P1138
Low level cable, 7', 3/32 male connector	P1077
Low level cable, 7', 1.5mm connector	P1075

Description	Part number
<b>Pressure sensor</b>	
Pressure sensor, domestic, Alice 6	1076590
Pressure sensor, international, Alice 6	1076592

<b>PTAF Lite</b>	
PTAF Lite startup kit Kit contains: P1258: cannula sample pack; P1289: PTAF Lite	P1289
PTAF Lite for Alice 5	P1304R

<b>PTAF2 and PTAF Lite accessories</b>	
Cannula titration filter (50 pack)	P1107
Cannula titration filter (10 pack)	P1109
Cannula adapter kit	P1324
CPAP titration kit	P1327
CPAP titration kit Alice PDx	P1391
Cannula sample pack	P1258

The PTAF Lite is a small, lightweight piezo-style pressure transducer used in AC device configurations.

## Respiratory inductance plethysmography effort sensors

### zRIP respiratory effort sensors and zRIP DuraBelts

- Provide linear breathing movement tracings with no false paradoxing
- Incorporate enhanced woven wire and buckle design
- Offer comprehensive patient coverage
- Facilitate easy initial placement, and easy middle-of-the-night adjustments
- Fully washable
- Available in non-SUM and SUM RT (breath-to-breath summation) modules
- Replaceable batteries
- One-year warranty

Description	Part number
<b>zRIP DuraBelt startup kits</b>	
<b>Alice 5</b>	
<b>zRIP DuraBelt kit, adult, Alice 5</b> Kit contains: 1 each P1736R zRIP Alice 5, 2 each P1133 zRIP wiresets, 2 each 1073622 zRIP DuraBelts, adult	1076333
<b>zRIP DuraBelt kit, pediatric, Alice 5</b> Kit contains: 1 each P1736R zRIP driver module, 2 each P1133 zRIP wiresets, 2 each 1075970 zRIP DuraBelts, pediatric	1076334
<b>Alice 6</b>

ezRIP module, thorax, 249, 16"	1094921
ezRIP module, thorax, harwin, 26"	1094097

### Understanding RIP signals vs. piezo signals

RIP	Piezo
Directly reflects breathing activity of a patient	Indirectly reflects breathing activity of a patient
Sensor wire wraps around the patient	Sensor (piezo) most commonly located near the belt buckle
Belt only needs to be snug on the patient for an accurate signal	Belt needs to be pulled taut for an accurate signal
Gain settings do not change during the night when the signal decreases	Gain settings usually need to be altered during the night to capture the signal
The signal decreasing reflects true patient breathing effort	The signal decreasing, or changing, can reflect "trapping" or artificial artifact
Thoracic belt placement is designed to be more precise than piezo	Belt placement can be anywhere in the thoracic area and pulled tight

## Piezo respiratory effort sensors

Description	Part number
<b>Piezo respiratory effort kits</b>	
<b>Piezo 1 channel adult kit</b>	P1461R
Kit contains: 1 each P1420 adult Velcro® strap kit 1.5", 1 each P1460 piezo sensor 1.5", 1.5mm connectors	
<b>Piezo 2 channel plus adult kit</b>	P1463R
Kit contains: 2 each P1420 adult Velcro strap kit 1.5", 3 each P1460 piezo sensor 1.5", 1.5mm connectors	
<b>Piezo 1 channel pediatric kit</b>	P1483
Kit contains: 1 each P1416 pediatric Velcro strap kit 1.5", 1 each P1460 piezo sensor 1.5", 1.5mm connectors	
<b>Piezo 1 channel pediatric kit</b>	P1462R
Kit contains: 1 each P1448 pediatric Velcro strap kit 1", 1 each P1453 pediatric piezo sensor 1", 1.5mm connectors	
<b>Piezo 2 channel plus pediatric kit</b>	P1464R
Kit contains: 2 each P1448 pediatric Velcro strap kit 1", 3 each P1453 pediatric piezo sensor 1", 1.5mm connectors	
<b>Adult Velcro strap kit, 1.5"</b>	P1420
Kit contains: 1 each adult Velcro strap 1.5", size 1, size 2, and size 3	
<b>Pediatric Velcro strap kit, 1.5"</b>	P1416
Kit contains: 1 each pediatric Velcro strap 1.5", size 1, size 2, and size 3	
<b>Pediatric Velcro strap kit 1"</b>	P1448
Kit contains: 1 each pediatric Velcro strap 1", size 1, size 2, size 3, and size 4	
<b>Piezo respiratory effort sensors</b>	
Piezo sensor, 1.5", adult, 1.5mm connectors	P1460
Piezo sensor, 1" pediatric, 1.5mm connectors	P1453
CT2 piezo sensor, adult, 1.5mm connectors	P1582
CT2 piezo sensor, pediatric, 1.5mm connectors	P1585
Stardust CT2 effort sensor, adult, harwin connector	P1805
CT2 effort sensor, adult, Alice 5, 1.5mm connectors	P1586
CT2, effort sensor, pediatric, Alice 5, 1.5mm connectors	P1587
CT2, effort sensor, adult, Alice 4, LEMO triaxial connector	P1804
CT2, effort sensor, adult, Embletta, 249 connector (2-pin keyhole)	P1800
CT2, effort sensor, chest, adult, dark gray, 16", 249 connector (2-pin keyhole)	P1823

### Piezo respiratory effort sensors

- Sensor straps are easy to size on most patients
- Low profile of the sensor straps enhances patient comfort
- Compatible with most PSG systems
- Plugs directly into standard AC channels
- Latex free
- One-year warranty

Description	Part number
<b>Piezo respiratory effort accessories</b>	
CT2, 18" extension strap	P1592
CT1 belt strap, adult, size 1, 1.5"w, 33.5"l	P1421
CT1 belt strap, adult, size 2, 1.5"w, 49"l	P1422
CT1 belt strap, adult, size 3, 1.5"w, 77"l	P1423

## Body position sensors

### Body position sensors

- Designed with patient comfort in mind
- Ability to identify the primary sleep positions (prone, supine, left, right, and upright)
- Patient's body position can be continuously monitored regardless of the amount of movement
- Attaches to the thoracic respiratory effort belt easily and comfortably
- Compatible with most PSG systems
- One-year warranty

### Description

#### Body position sensors

Description	Part number
SPI (sleep position indicator) resistive, Cadwell, 8-8 modular plug	P1652
Body position sensor, DC with 3.5mm connector	P1664
Body position sensor, DC with 1.5mm connector	P1664-WS2074
Body position sensor, Alice 6, 249 connector (2-pin keyhole)	1078758
Body position sensor, Alice 5, 1.5mm connectors	P1694
Body position sensor, Alice 4, LEMO triaxial connector	P1707
Body position sensor, Alice 3, LEMO connector	P1706

## Snore sensors and microphones

### Snore sensors and microphones

- The snore sensor, with its thin piezo crystal, is designed to provide an accurate, reproducible signal
- The snore microphone is designed to provide a thin baseline and clear, responsive signals
- Compatible with most PSG systems
- Six-month warranty for snore sensors
- Ninety-day warranty for snore microphone

### Description

#### Snore sensors and microphones

Description	Part number
Piezo snore sensor, 1.5mm connector	P1696
Snore sensor, Embletta, 249 connector (2-pin keyhole)	P1718
Snore microphone, 1.5mm connector	P1716
Snore microphone, Alice 6, 249 connector (2-pin keyhole)	1078753

## Periodic limb movement

### Periodic limb movement sensors

- Detect a patient's leg or arm movement
- Designed to provide clean, reliable signals while providing exceptional patient comfort
- Sensitive to subtle movements
- Do not require skin preparation prior to application
- Using kits, multiple sensors can be configured to combine PLM signals onto a single channel
- Six-month warranty

Description	Part number
<b>Periodic limb movement (PLM)</b>	
PLM sensor, Alice 6, 249 connector (2-pin keyhole)	1078752
Piezo PLM, 1.5mm connectors	P1697
<b>Piezo PLM kit</b>	P1698R
Kit contains: 1 each P1697 PLM sensor, 1 each P1689 Velcro strap PLM large, 1 each P1690 Velcro strap PLM small	
<b>Piezo PLM 2 per kit</b>	P1699R
Kit contains: 2 each P1697 PLM sensor, 2 each P1689 Velcro strap PLM large, 2 each P1690 Velcro strap PLM small, 1 each, P1097 safety male jumper wireset	
<b>Periodic limb movement (PLM) accessories</b>	
Jumper, wireset, 1.5mm	P1097
Velcro strap PLM, large	P1689
Velcro strap PLM, small	P1690

## Appendix: AASM scoring manual guidelines and Pro-Tech sensor application

### AASM scoring manual (Version 2.3) guideline – adults

#### Thermal airflow

Adults VIII.1.A: “The sensor to detect absence of airflow...is an oronasal thermal sensor.”

#### Flow nasal pressure

Adults VIII.1.B: “The sensor for detection of... hypopnea is a nasal air pressure transducer...”

#### Respiratory effort

Adults VIII.1.C: “The sensor for detection of respiratory effort is... inductance plethysmography.”

### Pro-Tech sensor

Oronasal thermocouple P1222

PTAF2 startup kit P1287

Nasal cannulas: adult (60 per case) P1259

Respiratory Inductance Plethysmography:  
zRIP DuraBelt kit, adult 1076329 or  
ezRIP adult kit, 1099514

### AASM scoring manual (Version 2.3) guideline – children

#### Thermal airflow

Children VIII.1.A: “The sensor to detect absence of airflow...is an oronasal thermal sensor.”

#### Flow nasal pressure

Children VIII.1.B: “The sensor for detection of... hypopnea is a nasal air pressure transducer...”

#### Respiratory effort

Children VIII.1.C: “The sensor for detection of respiratory effort is... inductance plethysmography.”

### Pro-Tech sensor

Oronasal thermocouple P1223

PTAF2 startup kit P1287

Nasal cannulas: pediatric (60 per case) P1263

Respiratory Inductance Plethysmography:  
zRIP DuraBelt kit, pediatric 1076330 or  
ezRIP module, abdomen, 1094094,  
ezRIP module, thorax, 1094096 and  
zRIP DuraBelt, pediatric, 1075970

#### Hypoventilation

Children VIII.1.E: “Acceptable methods for assessing alveolar hypoventilation... end-tidal PCO<sub>2</sub> monitoring.”  
Enable EtCO<sub>2</sub> and pressure monitoring simultaneously from both nostrils using one cannula.

Pro-Flow MultiPurpose Cannula:  
pediatric (30 per case) P1346

# The Dream family

At Philips Respironics, we know that good, sound sleep is vitally important at every age — to your work, your play, your physical and emotional well-being. That's why we designed the Dream family to help make treating your sleep apnea easy and comfortable. So you get the kind of sleep you need to help you feel more like yourself every day.

## DreamStation

**Natural. Comfortable. Sleep.**

With easy-to-navigate menus, a sleek, compact design and quiet operation, DreamStation makes it simple to start, customize and continue your sleep apnea therapy.

- Controls and interface at the front of the unit for enhanced visibility on your nightstand.
- Colorful, easy-to-use display with icon-based navigation and daily feedback.
- Most comprehensive suite of connectivity options available among the leading CPAP brands!

\*Internal assessment of 2015 competitive CPAP data comparing to ResMed Airsense10/Aircurve10 platform and Fisher & Paykel Icon series platform.

## DreamWear

**Like wearing nothing at all**

The open-face design provides superb comfort, allowing freedom of movement and the ability to choose your most comfortable sleep position. DreamWear is designed to be unlike any mask you've experienced.

- Users rate DreamWear more comfortable, more stable, easier to use and more appealing than their prescribed mask?
- Unique in-frame air-flow and an innovative air tube connection at the top of the head.
- Light, soft and flexible material.

\*2015 User Preference Questionnaire, data on file.

## DreamMapper

**Take charge of your sleep.**

As a mobile app and online software, DreamMapper helps keep you motivated to take charge of treating your sleep apnea.

- See daily feedback on your progress.
- Set and track custom goals, and unlock achievements.
- Find guidance and informational videos to help you stay committed.
- Receive notifications about your therapy and DreamMapper compatible\* equipment.

\*To see which CPAP and BIPAP devices are compatible with DreamMapper, visit [sleepapnea.com/mydreammapper](http://sleepapnea.com/mydreammapper).

# DreamStation

Natural, comfortable sleep

DreamStation supports long term patient use while creating efficiencies for your business

## Powerful patient-driven design

DreamStation was designed with feedback from hundreds of patients to provide a simpler PAP experience to help both new and experienced patients use therapy long-term. A suite of intuitive tools can be customized by healthcare professionals to choose the solution that's right for each patient.

## Acclimating patients in the early days of therapy

EZ-Start can help patients gradually adapt to their prescribed level of therapy using an innovative pressure acclimation algorithm with automatic, personalized adjustments to PAP pressure over the first 30 days.\*\*

SmartRamp allows users to fall asleep to lower pressures than standard ramp mode. The air pressure remains low until the patient experiences an obstructive respiratory event. Then SmartRamp responds with an auto algorithm to resolve the patient's apneas.\*\*

## Make progress every day

Each morning patients are greeted with Daily Progress Feedback — a summary of how far they've come to motivate them to stick with their therapy. The intuitive, color display shows a simple trend of their nightly hours of use, followed by a summary of their last 30 days of good nights with more than four hours of use.

## Sleep therapy success\* at your patients' fingertips

Bluetooth® is included in every DreamStation device for easy connectivity to the DreamMapper patient self-management tool. DreamMapper helps patients take an active role in their sleep management by providing daily therapy progress, helpful troubleshooting videos, and goal-setting tools. Patients can stay engaged and get the information they need fast, without having to use your staff's time to resolve common issues.

## An Encore performance

DreamStation connects to our powerful EncoreAnywhere patient compliance management software. EncoreAnywhere is HIPAA compliant and makes it easy and efficient for sleep professionals to manage patient compliance and therapy.

## Focus your time where it belongs

EncoreAnywhere features Adherence Profiler. It's an optional, intuitive tool that helps you identify patients according to their probability of achieving adherence, helping focus your staff's time on the patients that have the greatest likelihood of success

\*In a retrospective review conducted by Philips Respironics of approximately 15,000 SystemOne patients, patients who used SleepMapper, which has been rebranded to DreamMapper, demonstrated 22% greater adherence to the therapy than patients who did not use SleepMapper. To see a list of compatible DreamMapper devices, go to [www.dreammapper.com/compatible](http://www.dreammapper.com/compatible).

\*\*Not available in all DreamStation PAP models and modes.

DreamStation supports long-term patient use while creating new efficiencies for your business.

**Creating efficiencies**  
that make a difference

## More cost-effective connectivity options

Only DreamStation offers Bluetooth® Cellular and Wi-Fi connectivity options. By providing the most comprehensive suite of connectivity choices among leading CPAP brands\*, you can choose the options that are most cost effective. DreamStation's innovative design has the capability to adapt as technologies continue to advance.

### Making it easy to reach your patients

- Cellular provides data on a daily basis and one hour after the patient has turned the device off
- Wi-Fi delivers more data to clinicians more often and provides coverage even in weak cellular areas
- Bluetooth is included in every device for easy connectivity with DreamMapper and Alice NightOne

\*Internal assessment of 2017 competitive CPAP data comparing to ResMed Airsense10/Aircurve10 platform and Fisher & Paykel Icon series platform.

# Insight driven innovation

**Intuitive menu system**  
Graphics based menu inspired by smartphone navigation for ease of use

**Ambient light sensor**  
Automatically adjusts screen brightness for daytime or nighttime viewing

**Top-mounted hose outlet**  
Swivel outlet rotates 180° for freedom of movement

**Detachable humidifier**  
The humidifier separates to travel even lighter

**Simplified design**  
Easy access to water chamber for filling and cleaning

**Integrated Bluetooth®**  
Wirelessly connects with DreamMapper or Alice NightOne portable sleep diagnostic system

**Daily progress feedback**  
Displays previous 3 nights therapy results to track progress

**SD Card and compliance codes**  
Easily share sleep data with the care team

**Two-step air filtration system**  
Ultra-fine filter provides additional filtration of very fine particles

## Your DreamStation bi-level options

### Therapy for your noncompliant, nontolerant CPAP patients

Philips Respironics revolutionized sleep therapy by introducing bi-level positive airway pressure technology to treat obstructive sleep apnea. Emulating natural breathing with pressure relief at inhalation and exhalation, this proven technology does more than provide highly effective therapy – it delivers a level of comfort that can mean the difference between compliance and non-compliance for patients having difficulty adapting to traditional CPAP therapy.

# DreamStation BiPAP autoSV

Designed to deliver optimal ventilation with minimal intervention

Patients who suffer from central sleep apnea, complex sleep apnea, and periodic breathing, such as Cheyne-Stokes Respiration have needs that can change throughout the night, and from night to night. DreamStation BiPAP autoSV is designed to comfortably treat these patients by delivering therapy when it's needed to help them achieve a restful night's sleep.

# DreamStation BiPAP AVAPS and S/T

## Meeting patients' therapeutic needs

DreamStation ventilation solutions are designed to deliver effective and comfortable therapy so patients can experience an improved quality of life.

**DreamStation BiPAP AVAPS & S/T algorithms:**

- Simultaneously and dynamically treat hypo-ventilation\* and OSA in any ventilation mode
- Provide appropriate therapeutic support to meet the changing needs of patients over time

# PAP accessories

to meet your patients' needs

Discover new ways to enhance your patients' therapy experience by offering a wide variety of convenient PAP accessories. Carrying these accessories can enable you to:

- Keep in contact with patients and build lasting relationships for future opportunities
- Help patients enjoy a better quality of life with a variety of accessories that allow them to conveniently travel with their sleep therapy system or store components discreetly at home
- Create a retail revenue opportunity and attract additional patients to your business

## DreamStation travel case

The DreamStation travel case\* gives patients a convenient, compact, and discreet way to travel with their DreamStation sleep therapy system and supplies.

### Convenient

The case includes a DreamStation 65W power supply that is lighter and smaller than the DreamStation 80W power supply. The included USB port powers the DreamStation\*\* system and can be used to charge items such as a smartphone and other electronic devices during travel.

### Compact

The lightweight, hard-fabric case offers an ideal combination of protection and portability. Its individual compartments accommodate the DreamStation\*\* system and neatly organizes the supplies. An included mesh pouch holds the tubing securely in place.

### Discreet

The case is designed to make traveling with sleep therapy equipment less cumbersome. A molded insert liner helps the patient thoroughly pack the PAP system components. The case can be easily attached to a roller suitcase and its zip top helps facilitate airport screening. On a plane, it easily fits in the overhead bin or under the seat.

### Benefits for patients

- The hard-fabric case provides added peace of mind that the sleep therapy system will be protected during travel.
- The included power supply offers travel convenience.
- The USB port on the 65W power supply reduces the need for an additional charger.
- Molded insert liner designed to help the patient thoroughly pack the PAP device components.

### Components

The case accommodates the Philips Respironics DreamStation sleep therapy system (blower only, no humidifier), the patient's mask and tubing, a 65W power supply w/ USB port, and a removable luggage strap.

### Specifications

Dimensions: 10.42" (26.46 cm) x 3.94" (10 cm) x 13.78" (35 cm)

# PAP battery kit

Give your patients the confidence and convenience of powering their PAP therapy device with the Philips Respironics battery kit. It's designed to provide an uninterruptible power supply (UPS) to the DreamStation and System One sleep therapy devices.

**Designed for peace of mind**

Your patients will know that when the power goes out, the battery pack's integrated uninterruptible power supply (UPS) will help reduce therapy disruptions. Continuously connecting the battery kit to the patient's Philips Respironics sleep therapy device's power supply keeps it charged and ready for travel or UPS protection.

**Convenient for travel**

The battery pack is our lightest and smallest ever, offering easy portability so patients can continue therapy away from home. It's great for camping, hotel use, or active duty military. The battery pack uses the power supply from the patient's Philips Respironics sleep therapy device to reduce the number of cords needed for travel. And it meets FAA requirements for airplane travel.

- Benefits for patients**
- The battery pack provides more than 14 hours of battery life\* for PAP devices.
  - It's compact and lightweight at just 2.25 lbs.
  - It meets FAA requirements (90W lithium ion battery pack).
  - No prescription is required.
  - It comes with a six-month warranty.
  - Its lithium ion battery is environmentally conscious.

**Components**

The battery kit accommodates the Philips Respironics DreamStation and System One sleep therapy devices. It includes a rechargeable lithium ion battery pack, a PAP device cable, 2 adapters (for use with System One 50 series only), and a battery case. Supports DreamStation, System One 60 series, System One 50 series CPAPs and BiPAPs. Utilizes DreamStation or System One power supply. Additional power supply not included.

**Specifications**

Dimensions: 1.25" (3.175 cm) x 5.25" (13.335 cm) x 9.0" (22.86 cm)  
Weight: 2.25 lbs. / 1.02 kg

\*\*PAP Lithium Ion Battery Kit for use with the Philips Respironics DreamStation and System One CPAPs, BiPAPs, autoSV, BiPAP AVAPS, and BiPAP S/T sleep therapy devices. Includes a rechargeable lithium ion battery pack, a PAP device cable, and a battery case.

## PAP travel briefcase with detachable laptop bag

The PAP travel briefcase\* gives patients an all-in-one carrying option that accommodates most PAP therapy systems and humidifiers, a laptop, and other small items. It makes it easy and efficient to travel with a sleep therapy system.

The travel briefcase features two bags that conveniently zip together into one carry-on. The therapy system and accessories fit snugly and securely into customizable compartments on one side of the case, while the laptop and its accessories fit securely into the ample-sized pockets of the other side. There's even space for books, magazines, and other small travel items.

### Benefits for patients

- Its compartments protect the sleep therapy system and accessories during travel.
- Its zip top facilitates easy airport screening process.
- It fits within the FAA maximum carry-on size.
- The lightweight case offers easy portability.
- It's designed to easily attach to a roller suitcase.

Power supply

Tubing

DreamStation with humidifier

### Components

The briefcase accommodates most PAP therapy devices and accessories and standard-size laptop computers.

### Specifications

Dimensions: 16.14" w (40.99 cm) x 13.58" h (34.49 cm) x 7.87" d (19.99 cm)

## Mask and tubing bedside organizer

The bedside organizer gives patients a way to conveniently store their mask and tubing without cluttering a nightstand — both at home and during travel. It also keeps the components dust-free and ready for use.

The organizer features a weighted flap to allow it to hang over a nightstand or between a patient's mattress and box spring. It even features a zippered compartment for the mask and tubing, making the organizer a great travel companion.

### Benefits for patients

- The organizer provides a clean, discreet place to store mask and tubing while not in use.
- Its design looks right at home in the bedroom.
- It can be used on a nightstand or in between mattress and box spring.

### Specifications

Dimensions: 7.99" (20.3 cm) x 10.94" (27.8 cm) x 3.74" (9.5 cm)  
Color: Light gray

## LiquiCell® nasal CPAP cushions

LiquiCell® is a thin, pliable cushion infused with fluid that can be applied virtually anywhere on the face, making it versatile. The cushion enhances comfort by acting as a barrier between the user's face and the mask. Gentle adhesive keeps the cushion securely in place.

## Advanced event detection:

Patient events are detected and logged for review by the care team for optimal patient care.

## Philips Respironics devices with advanced event detection detect, respond to (some models), and log the following advanced events:

- Apnea Hypopnea Index (AHI)
- Flow limitation (FL)
- Obstructive airway apnea (OA)
- Periodic breathing (PB)
- Respiratory-related arousal (RERA)
- Leak
- Large leak (LL)
- Hypopnea (H)
- Snore
- Vibratory snore (VS)
- Clear airway apnea (CA)

Any Philips Respironics device with advanced event detection gives you the ability to review the patient flow waveform report.

## Your DreamStation Travel CPAP options

# Convenience without compromise

At half the size of our System One and DreamStation platforms, DreamStation Go offers the same therapy and comfort features used by more than 5 million CPAP users.

## Why you and your patients will love DreamStation Go

### Mask compatibility

DreamStation Go gives your patients the freedom to choose the mask they want.\* There's no need for your patients to switch from the mask they are currently wearing when choosing a travel CPAP.

### Optional battery available

DreamStation Go's overnight battery can help your patients stay committed to their therapy when they are off the grid.

### Simple setup

Intuitive color touch screen navigation doesn't require a mobile device app to set up or adjust your patient's therapy.

### Micro-flexible tubing

DreamStation Go features the smallest PAP tubing we've ever offered. Engineered to minimize bulk and improve mobility, our 12mm tubing is 58% smaller than our 22mm performance tubing. It offers enhanced flexibility, portability, and connectivity.

\*DreamStation Go is equipped with a universal adapter designed to fit all standard 22mm OD connections.

# Sleep masks

Our complete line of nasal, full-face, minimal contact, and pediatric masks reflect our commitment to innovation and meeting patient and business needs.

Not all products are available in all countries. Check with Philips Respironics customer service or your local distributor.

# DreamWear

Like wearing nothing at all

Patients can sleep how they want with the freedom and comfort of DreamWear.

The Philips Respironics DreamWear frame supports both nasal and gel pillows cushions to meet patients' needs. DreamWear's remarkable design directs airflow through the frame so patients can sleep comfortably, and the tubing connection located at the top of the head allows patients to sleep in any position they desire—on their stomach, side, or back.

**Users told us that DreamWear gave them more freedom to move, had a better fit than their prescribed mask, and comes closest to making them feel like they don't have anything on their face during therapy.\*\***

\*Data analysis at 30 days of use of 2015 Philips sponsored patient preference trial (n=98).  
Prescribed masks include ResMed Swift FX, ResMed Mirage FX, Philips Wisp, and ResMed AirFit P10.

# One mask

fits all three cushion types

## Simply switch cushions without changing masks

Choosing the right mask for your patients is one of the most difficult jobs you face. The non-stop trial and error involving the masks, cushions, and headgear needed to fit your patients becomes tedious and time-consuming.

On top of that, you must manage patients in their initial acceptance period who struggle for a variety of reasons including poor fit, leaking, nasal congestion and others.

Now, DreamWear's design allows you to quickly and easily switch between full face, nasal and gel pillows cushions without changing masks. With fewer mask decisions to make, you can focus on what's really important: your patients.

### Benefits

- Can accommodate full face, nasal and gel pillows cushions
- Allows for easy switching between cushion types
- May reduce the number of masks needed to set up a patient
- Helps streamline the amount of inventory to be managed
- Can increase efficiency by requiring education on only one mask

Clinicians rated the DreamWear mask with nasal and gel pillows cushions as taking less time to change than another pillows mask and nasal mask.\*

\*Data taken from December 2015 ease-of-use trial involving

# DreamWear

**Soft silicone frame**  
Light, flexible material designed for comfort.

**Open field of vision**  
Wear glasses, read, and watch TV.

**No red marks\***  
Leaves no marks on the bridge of the nose.

**Innovative**  
Under-the-nose design.

**Top-of-head tube connection**  
Provides freedom of movement throughout the night.

**In-frame airflow**  
Unique design allows airflow through the frame to help patients sleep comfortably.

**Interchangeable cushions**  
Easily switch between nasal and gel pillows cushions.

\*Mask does not directly contact the bridge of the nose or nostrils.

# Three cushion types on one mask

## Simply switch cushions without changing masks

# Wisp

A combination of comfort, performance and style

Developing solutions that meet the needs of a rapidly changing industry calls for fresh thinking and collaboration. At Philips Respironics we traveled around the world asking clinicians, homecare providers, and patients how we could improve their experience.

Clinicians wanted us to resolve the tradeoff between nasal and pillows masks, homecare providers wanted a solution that could reduce operational complexity by getting more patients served from one package, and patients wanted a better overall mask experience that improved their lifestyle.

### Key benefits

- Compact design for a comfortable fit
- Soft and comfortable for a restful night's sleep
- Open field of vision for a feeling of independence
- Quick and easy to adjust for a superior seal and personalized fit
- Contemporary frame options to complement your style

# Pico

Pico nasal mask delivers performance for you and your patients

## Practical innovation

At Philips Respironics, we created Pico with a definitive goal in mind — to create a truly appealing traditional nasal mask that makes minimal contact with the face and offers simplicity, comfort and seal. These qualities make it an ideal choice for new and existing sleep apnea patients who want minimal disruptions to their lifestyle.

## ComfortGel Blue

### ComfortGel Blue

Staying true to our acclaimed blue gel masks, we've retained the globally popular comfort and flexibility features you expect, while enhancing patient comfort even further. With ComfortGel Blue, we've reduced noise, and redirected exhalation air flow away from the bed partner. These and other enhancements may help to create a better patient experience and encourage greater adherence.

Other headgear can be used with this mask including premium headgear, RS premium headgear, deluxe headgear, and small deluxe headgear.

### EasyLife nasal mask

With its Auto Seal technology, the EasyLife nasal mask nearly eliminates the need for manual mask adjustments. Its innovative, lightweight design features a unique dual-cushion construction - the inner cushion creates an instant, self-adjusting seal, while the outer cushion provides comfortable support. The only manual steps necessary are intuitive headgear adjustments, making fitting as easy as possible.

# Amara View

High marks for performance,  
no marks on the bridge of your nose

An idea whose time has come. The Amara View's incredible under-the-nose design makes it Philips' only full-face mask that won't cause red marks on the bridge of your nose. Amara View is the only Philips full-face mask that allows the user to wear glasses, as intended, to read or watch TV.\*

With its amazingly innovative design, only Philips Respironics can offer the smallest and lightest choice with the widest field of vision of all leading full-face masks. Amara View covers less of a patient's face than all leading full-face masks.\*

\*Internal testing (October 2013, November 2013, May 2014), comparing Amara View with Quattro, Quattro FX, Quattro Air, Aiffit F10 and F&P Simplus.

## Key benefits

- Innovative design prevents red marks, discomfort or irritation on the nose bridge\*\*
- The smallest and lightest† of all leading full-face masks\*\*\*
- Widest field of vision of all leading full-face masks\*
- Enables wearing glasses, reading, and watching TV\*\*\*
- Easy to use with one modular frame for all cushion sizes
- No bulky cushion and frame in front of your face and eyes

\*\*Design claim

\*\*\*Internal testing (October 2013, November 2013, May 2014), comparing Amara View with Quattro, Quattro FX, Quattro Air, Aiffit F10 and F&P Simplus.

† Without quick release tube

# Amara

Performance, appeal, and simplicity at its best

With gel and silicone options and our one “click” design, Amara delivers performance and ease of use for your patients. With the addition of a gel cushion option, Philips Respironics has made the ingeniously-simple Amara full face mask even more brilliant. Your patients can now choose the type of comfort they prefer in their cushion with gel or silicone options.

## ComfortGel Blue Full

### ComfortGel Blue Full full-face mask

The design combines from very familiar – and popular – components. Our comfortable forehead cushion and enhanced StabilitySelector combine with our popular blue gel replaceable cushion. The unique sure seal technology (SST) provides a membrane-thin layer over the gel cushion to follow the contours of the face better, allowing wearers to quickly achieve the comfortable seal they need.

Other headgear can be used with this mask including premium headgear, RS premium headgear, deluxe headgear, and small deluxe headgear.

### FitLife

A solution for patients who have difficulty wearing masks or who simply prefer a clear line of sight. FitLife addresses a number of patient issues. Facial hair, dentures, nasal bridge breakdown, facial irregularities, and claustrophobia are issues that can greatly impact the ability to establish effective therapy and comfort. FitLife quickly establishes a robust seal around the less pressure-sensitive perimeter of the face, while maintaining an unrestricted view.

# Nuance

## Nuance gel pillows platform

We're setting a new standard in nasal pillows masks. Philips Respironics, one of the world leaders in gel cushion technology, is bringing the comfort and sealing power of gel to nasal pillows.

As one of the latest in our groundbreaking new line of masks, Nuance gel pillows represent a choice for enhancing sleep therapy for clinicians, home care providers and patients.

As the first and only gel pillows platform, Nuance is designed to help patients succeed by providing a comfortable and familiar feel. With the greater comfort and seal of gel pillows, the ability to fit many different size nostrils and choice of a fabric or gel frame, Nuance is truly a great choice in nasal pillows masks.

### Key benefits

- Choice between fabric or gel frame for comfort
- Non-slip headgear stays in place throughout the night
- Gel pillows provides excellent comfort and seal
- Lightweight, flexible tubing
- Conforms to different size nostrils

# Software and applications

For physicians, respiratory therapists and providers, reliable data is critical to helping patients comply and adhere to therapy. Without data, it is difficult for clinicians to know whether patients are comfortable or successful with their therapy. That's why we've developed software applications that provide clinicians with reliable, easy-to-access data they can use to make confident clinical decisions to keep patients on therapy. Our software applications help clinicians personalize care to the patients at the right time by keeping care teams informed and connected so they can do what they love doing every day...care for patients.

## Care Orchestrator

The delivery of quality, value-based healthcare is more complex than ever. With limited resources supporting a growing number of patients, it can feel like more efficient, effective and integrated care remains just out of reach. Philips Care Orchestrator aims to improve the patient and staff experience, and reduce the overall cost of care by converting relevant, clinical sleep and respiratory care data into actionable insights. With these insights, providers can drive the clinical care process across the team and can deliver efficient, effective, personalized care for the patients at the right time. Our patient management system puts the power to make better, more informed clinical decisions at providers' fingertips so patients get the care they need and can live the lives they want.

## DreamMapper

Help your patients take an active role in their sleep apnea therapy. DreamMapper is a mobile app and web-based software system that provides the personalized feedback your patients need to take an active role in their therapy. Information is easy to see, simple to find and all available to providers through Care Orchestrator so you can take an active role in your patient's care. With DreamMapper, patients can see the quality of their sleep, how they are progressing on therapy, find helpful guides to get back on track if isn't progressing along as hoped and find resources on how to properly use and maintain their Philips ResPironics masks and DreamMapper compatible equipment. To help them stay motivated during therapy, patients can pre-set goals or create custom goals to give them something to work toward.

# One COPD

Philips patient care solutions

## Treating patients with advanced technology

- Nebulizers designed for adherent drug delivery
- Home oxygen systems created to deliver freedom and flexibility
- Connected ventilators with advanced breath technology

## Empowering clinicians and patients with education

- Supplying empowering insights and information to help the patient and COPD care community
- Giving patients control with the ability to monitor oxygen saturations

## Monitoring patients with connected solutions

- Customized patient management – prioritizes evaluation and clinician follow-up based on specific criteria
- Active patient engagement/self-management – patients answer personalized health surveys and stay connected with care teams
- Automatic data transmission – equips care team with the data needed to intervene quickly when needed

# Respiratory drug delivery

Respiratory Drug Delivery provides innovative drug delivery technologies for the treatment of respiratory diseases. Our easy-to-use products include compressor nebulizer systems, holding chambers, inspiratory muscle trainer, positive expiratory pressure (PEP) device and peak flow meters.

Not all products are available in all countries. Check with Philips Respironics customer service or your local distributor.

# InnoSpire Essence

compressor nebulizer system

Compact, lightweight and economical, the InnoSpire Essence compressor nebulizer system combines with proven SideStream technology to provide fast and efficient aerosol drug delivery.

# InnoSpire Mini

compressor nebulizer system

InnoSpire Mini allows your patients to nebulize their medications whenever they want and wherever they may be. Compact, lightweight and reliable, it provides independence for people who want to get the most out of life.

An ideal traveling companion, InnoSpire Mini's compact size allows for easy transport while a breath-enhanced reusable nebulizer makes it easy to use. The SideStream Plus reusable nebulizer provides fast, effective treatment and can be used to effectively deliver most commonly prescribed aerosol medications.

#### Choose the time and place that's right for you

An optional rechargeable lithium ion battery operates the InnoSpire Mini compressor for up to 90 minutes between charges (and can be fully recharged in approximately 6 hours). A 12V DC adapter enables the compressor to be powered in autos, trucks, boats and recreational vehicles. The compressor can also be powered by the traditional 110V AC wall outlet. InnoSpire Mini is compliant with selected FAA environmental RTCA/DO-160-F standards for airborne equipment as well as the international basic safety and essential performance standard IEC 60601-1 third edition and its amendments.

#### Accessories include

- SideStream Plus high-efficiency, reusable nebulizer
- Optional rechargeable lithium ion battery
- 12V DC (car) adapter
- AC adapter
- Carrying case
- Spare filters

1126591	InnoSpire Go With power adaptor, quick reference guide, medium LiteTouch mask (suitable for ages 1-5 years), mask adapter, and carrying case

Accessories	
1128501	InnoSpire Go Mouthpiece Assembly
1128576	InnoSpire Go Carry Case
1125985	InnoSpire Go Mask Adapter
1127822	InnoSpire Go LiteTouch Small Mask (0-18 months)
1127798	InnoSpire Go LiteTouch Medium Mask (1-5 years)
1127875	InnoSpire Go LiteTouch Large Mask (adult)
1127651	AC/DC Power Adapter (US)

## Sidestream nebulizers

### SideStream disposable nebulizer

The SideStream disposable nebulizer offers fast, efficient, and economical drug delivery. It provides consistent drug delivery time after time and can be used with all commonly prescribed respiratory medications. The unique venturi design offers fast drug delivery and short treatment times. It can be used for two weeks before replacing.

Part number		HCPCS
HS800	SideStream disposable nebulizer, 50 pk	A7003
1028219	SideStream disposable cup, 50 pk	A7004
1036160	SideStream disposable with adult mask, 50 pk	A7003, A7015
1041906	SideStream disposable with pediatric mask, 50 pk	A7003, A7015

### SideStream reusable nebulizer

The unique venturi design offers fast drug delivery and short treatment times. It can be used for six months before replacing.

Collis G.G. et al. *Lance* 1990;336:341

Part number		HCPCS
HS860	SideStream reusable nebulizer, 10 pk	A7005
HS860-050	SideStream reusable nebulizer, 50 pk	A7005

### SideStream Plus reusable nebulizer

The SideStream Plus breath-enhanced nebulizer features an easy-action inspiratory valve that opens on inspiration to boost medication delivery and closes on exhalation, preserving medication and reducing waste. Less pressure is required to open the inspiratory valve, making treatments easier for pediatric and elderly patients and its proven SideStream five-jet venturi design provides a high respirable fraction and shortens treatment times. It can be replaced every 6 months.

Part number		HCPCS
HS870	SideStream Plus breath-enhanced nebulizer, 10 pk	A7005
1110824	SideStream Plus breath-enhanced nebulizer, 50 pack	A7005

## Nebulizer Kits

### SideStream replenishment nebulizer kit

These custom nebulizer kits are designed to provide a month replacement of product in each package. Includes two complete SideStream disposable nebulizers and two replacement nebulizer cups.

Part number		HCPCS
1028125	SideStream custom nebulizer kits, 25 pk	A7003 and A7004

## Nebulizer Masks

### SideStream masks

The SideStream mask is recommended for use with the SideStream high-efficiency nebulizers. The reusable mask is contoured to fit the face. The pediatric mask is recommended for ages five and under; the adult size for ages six and up.

Part number		HCPCS
1025529	SideStream pediatric mask, 50 pk	A7015
1025531	SideStream adult mask, 50 pk	A7015
1052521	SideStream Plus adult mask	A7015

### SideStream pediatric eye-safe masks

Sami the Seal and Tucker the Turtle child-friendly masks are designed to appeal to children and are constructed to reduce aerosol deposition in and around the eyes. Used with SideStream nebulizers, Sami and Tucker pediatric masks are made of soft, flexible material for comfort and fit.

Part number		HCPCS
HS880	Sami the Seal pediatric mask (for use with SideStream Plus HS870 nebulizer only)	A7015
1044382	Tucker the Turtle pediatric mask	A7015

# OptiChamber Diamond

antistatic valved holding chamber

## The “one for all” chamber

In the hospital or at home, its uniquely designed stepped mouthpiece and detachable masks make the OptiChamber Diamond suitable for patients of all ages.

## The chamber that fits into your patients' lives

OptiChamber Diamond is small and designed for patient comfort. Its stepped mouthpiece facilitates transfer from pediatric mask to mouthpiece and its flat bottom maintains stability when the VHC is not in use.

### Key features

- Intuitive, ergonomic design
- Low resistance expiratory valve
- Flexible pMDI adapter
- Detachable LiteTouch facemasks with soft-seal technology

Part number		HCPCS
1077478	OptiChamber Diamond, 10 pk	A4627
1079823	OptiChamber Diamond with LiteTouch small mask, 10 pk	A4627
1079826	OptiChamber Diamond with LiteTouch medium mask, 10 pk	A4627
1079827	OptiChamber Diamond with LiteTouch large mask, 10 pk	A4627
1098213	OptiChamber Diamond, 10 pk, Canada	
1098214	OptiChamber Diamond with Lite Touch small mask, 10 pk, Canada	
1098215	OptiChamber Diamond with LiteTouch medium mask, 10 pk, Canada	
1098216	OptiChamber Diamond with LiteTouch large mask, 10 pk, Canada	

## ProChamber valved holding chamber

ProChamber is the professional model valved holding chamber for the acute respiratory care setting. Its proven clinical performance and great value make ProChamber the choice for the budget-conscious clinician.

Part number		HCPCS
HS2003-050	ProChamber valved holding chamber, 50 pk	A4627

## Holding chamber masks

### LiteTouch valved holding chamber mask

LiteTouch with soft seal technology that attaches onto the mouthpiece of the OptiChamber Diamond valved holding chamber (VHC). Gently touching the mask to the face creates a cushion-like seal that quickly contours to the face, making it easy to fit, especially for small children. Coupled with the Diamond VHC, LiteTouch's soft-seal technology minimizes leaks and helps to deliver optimum aerosol therapy for asthma and other respiratory illnesses. It is not manufactured with BPA as declared by our suppliers.

#### Part number

1082714 LiteTouch mask small, 10 pk

1082715 LiteTouch mask medium, 10 pk

1082716 LiteTouch mask, large, 10 pk

### Silicon masks

Our detachable valved holding chamber masks for the ProChamber provide an effective seal and conform to fit different facial geometries. Built-in reinforcements help prevent the mask from collapsing and assist in maintaining a seal, especially when your pediatric patients are not cooperative. Available in small (0 – 18 months), medium (1 – 6 years), and large (6 years +) sizes.

#### Part number

HS81111-010 OptiChamber small face mask, 10 pk

HS81211-010 OptiChamber medium face mask, 10 pk

HS81311-010 OptiChamber large face mask, 10 pk

## Chambers, and asthma kits

### AsthmaPACK

The AsthmaPACK adult and children's personal asthma care kit for patient adherence implements three key elements of the NAEPP asthma treatment guidelines with one prescription-peak flow monitoring, MDI drug delivery, and asthma education. One prescription will give your patients a comprehensive, clinician-directed, patient-managed asthma plan with the tools needed to better understand their asthma, monitor their conditions objectively, and take their prescribed medications correctly and consistently.

#### Part number

1099014 Adult asthma care kit, 10 pk

1099015 Children's asthma care kit, 10 pk

Kits include a peak flow meter, spacer, instructional video, and educational self-help booklet.

### AsthmaPACK children's asthma care kit

AsthmaPACK children's asthma care kit makes learning to manage asthma child's play. This just-for-kids kit makes learning fun with engaging cartoon characters and age-appropriate devices. An exciting feature of this kit is the interactive bilingual (English/Spanish) coloring and activity storybook, "Tucker Tackles Asthma."

#### Part number

1099014 Adult asthma care kit, 10 pk

1099015 Children's asthma care kit, 10 pk

Kits include a peak flow meter, spacer, instructional video, and educational self-help booklet.

## Peak flow meters

### AsthmaCheck

AsthmaCheck's easy-grip handle directs hands away from the airflow path and is designed for accurate measurements. Like all of our peak flow meters, it has a built-in three-zone management system and an easy-to-read scale which is suitable to all patients (60 – 810 l/min).

Part number	HCPCS
HS740-012 AsthmaCheck, 12 pk	A4614

### Personal Best peak flow meter

Wherever Personal Best goes – in the hospital, office, or home – it sets a new standard for convenience and confidence. And Personal Best goes anywhere...easily. A lightweight, self-contained, portable design puts peak flow monitoring at your fingertips – or your patients' – all day long. Plus, a rugged, sterilizable construction helps it stand up to the roughest use day after day. Personal Best encourages compliance with its comfortable oval mouthpiece and easy-to-use built-in handle. And it improves patient communication with its high-legibility scale and meets NAEPP-endorsed three-zone management system. Available in both full range (60 – 810 l/min) and low range (50 – 390 l/min).

Part number	HCPCS
HS755-012 Personal Best full range peak flow meter, 12 pk	A4614
HS756-012 Personal Best low range peak flow meter, 12 pk	A4614

## Mouthpieces

### Disposable and one-way valve mouthpieces

Mouthpieces help support your goals in reducing cross-contamination during multi-patient screening with Personal Best, and AsthmaCheck peak flow meters. The one-way valve prevents patients from inadvertently breathing in air through their meters during PEFr testing.

Part number	Description
HS715-100	Disposable pediatric plastic mouthpieces for all Respironics' peak flow meters, 100 pk
HS757-100	Disposable mouthpieces for Personal Best, AsthmaMentor, and AsthmaCheck, 100 pk
HS714-200	One-way valve safety mouthpieces for Personal Best, and AsthmaCheck, 200 pk

## Inspiratory muscle trainers and airway clearance

### Threshold IMT

Provides consistent and specific pressure for inspiratory muscle strength and endurance training, regardless of how quickly or slowly patients breathe. This device incorporates a flow-independent, one-way valve to provide consistent resistance and features an adjustable specific pressure setting (in cm H<sub>2</sub>O) to be set by a healthcare professional. When patients inhale through Threshold IMT, a spring-loaded valve provides resistance that exercises respiratory muscles through conditioning.

Part number	HCPCS
HS730-010 Threshold IMT, 10 pk	E1399

### Threshold PEP

Threshold PEP is used for airway clearance, bronchial hygiene, or as an alternative to chest physical therapy. Threshold PEP incorporates a flow-independent, one-way valve to ensure consistent resistance with adjustable specific pressure settings (in cm H<sub>2</sub>O) which are set by the healthcare professional. When patients exhale through Threshold PEP, the resistive load creates positive pressure that helps open the airways and allows mucus to be expelled during "huff" coughing (forced expiratory technique).

Part number	HCPCS
HS735-010 Threshold PEP, 10 pk	E1399

# Oxygen

Philips Respironics Right Fit oxygen therapy products are intended to give patients the freedom they want while helping homecare providers reduce expenses and make the most of shrinking reimbursements.

PHILIPS  
RESPIRONICS

Not all products are available in all countries. Check with Philips Respironics customer service or your local distributor.

# SimplyGo Mini

A reliable, powerful choice in lightweight portable oxygen concentrators.

We built SimplyGo Mini to be tough. During development, SimplyGo Mini was rigorously tested in real world environments including impacts, vibrations, and temperatures to deliver reliable performance day in and day out.

#### Delivering more when you're on the go

From a walk in the park to an overnight trip, SimplyGo Mini may help you remain active and provide you with flexibility while on the go.

### SimplyGo portable oxygen concentrator

Manage the therapy and lifestyle needs of nearly all of your patients with just one POC. Designed to be rugged and easy to use, SimplyGo is truly a new breed of lightweight and attractive portable concentrator.

Now one POC meets the portable oxygen needs of nearly all of your patients.

SimplyGo is Philips first oxygen concentrator that offers the benefits of a continuous flow mode in a lightweight, easy-to-carry design of 10 lbs or less.

SimplyGo offers a solution that fulfills the needs of most of your oxygen-therapy patients. With SimplyGo, patients have the flexibility to be away for the day, for work, for a weekend or a long holiday.

#### Key benefits

- Attractive, sleek design
- Easy-to-remove battery
- Intuitive, easy-to-read screen
- Convenient carrying case
- Handy fold-up cart
- Detachable accessory bag

**Simple-to-use**  
touch-pad interface

**Simple-to-select**  
oxygen delivery mode

**Lightweight**  
Simple-to-carry anywhere, anytime!

The manufacturer of this POC has determined this device conforms to all applicable FAA requirements for POC carriage and use on board aircraft.

# SimplyFlo

stationary oxygen concentrator

## Life made simple

For nocturnal patients who may be refusing or resisting therapy because of the size, weight and lifestyle disruptions that can accompany the use of traditional concentrators, SimplyFlo weighs less than nine pounds and is designed to enhance adherence. SimplyFlo is one of the smallest and lightest continuous flow stationary oxygen concentrators available. It operates on external power only and has no internal battery. An optional travel accessory case allows oxygen patients to easily transport SimplyFlo between locations.

### Key benefits

- Weighs 8.5 pounds
- Provides .5 to 2 LPM continuous flow output
- Operates on AC power (no internal battery)
- Simplifies transport for travel or within the home
- Helps nocturnal oxygen users maintain an active lifestyle during the day

### Part number

11076773 SimplyFlo oxygen concentrator (includes concentrator, AC power cord and user manual)

### HCPCS

E1390

### Accessories

1076830 SimplyFlo travel case  
 1082664 AC power cord  
 1082661 AC power supply  
 1076809 User manual  
 1076829 Humidifier bottle holder  
 1101172 Humidifier connecting tube kit

### Warranties

1097623 SimplyFlo two-year total warranty  
 1097577 SimplyFlo three-year total warranty

## Another solution for nocturnal patients

The optional travel accessory case allows patients to easily transport SimplyFlo between locations.

Once again, Philips Respironics is bringing innovative solutions to your business and your patients.

SimplyFlo represents a comprehensive option for nocturnal patients who may be refusing or resisting therapy because of the size, weight and lifestyle disruptions that can accompany the use of traditional concentrators.

### Designed to enhance adherence

For many patients new to therapy who only require nocturnal treatment, the intimidating size, weight, and sound of a traditional oxygen concentrator can be a large factor in their rejection of therapy.

## Concentrators

### EverFlo concentrator

Delivers a great performance and demands so little in return. It's small, quiet, and designed to be easy to use and less expensive to operate. So now you can control oxygen therapy costs and deliver all the features you and your patients want with one 31-pound concentrator that's bound to be the star of your business.

Part number		HCPCS
1020000	EverFlo oxygen concentrator	E1390
1020001	EverFlo oxygen concentrator with oxygen percentage indicator (OPI)	E1390
1039362	EverFlo oxygen concentrator, transfill	E1390

# UltraFill

## Home oxygen filling system

UltraFill is an advanced home oxygen system that combines a stationary oxygen concentrator, filling station, and high-capacity cylinders to meet the needs of a wide range of oxygen patients, including those who are highly active or require continuous flow oxygen. UltraFill also has the needs of your business in mind with features intended to save you money by using existing inventory and lowering your operating costs.

### Patient-friendly design

- One-handed cylinder connect/disconnect
- Patient can stop and restart filling at their convenience
- Low noise level: 44dBa
- Cylinders can be topped off to make partial fills
- Low power consumption: 110W
- Fill level indicator monitors cylinder fill level

### Ordering information

# Millennium M10

## Concentrator

Delivers up to 10 LPM of oxygen reducing the delivery costs associated with 5 LPM and above oxygen patients. The M10 is engineered to reduce the cost of providing oxygen at higher liter flow and has fewer parts. Fewer parts, combined with great reliability, help you to reduce expenditures on accessories and unnecessary inventory.

Part number		HCPCS
M10600	Millennium 10-liter oxygen M10 concentrator	E1390
M10600-80	Millennium 10-liter oxygen M10 concentrator, Canada	
M10605	Millennium 10-liter oxygen M10 concentrator with OPI, Canada	E1390
M10605-80	Millennium 10-liter oxygen M10 concentrator with OPI, Canada	
M10600-10	Millennium 10-liter oxygen concentrator, transfill	E1390

1119928	SimplyGo Mini Carry Bag and Strap, Black
1119893	SimplyGo Mini Accessory Bag, Black
1119894	SimplyGo Mini Backpack, Black
900-107-02	Black carrying case, EverGo oxygen concentrator
900-250	Accessory case, EverGo oxygen concentrator
1018019	GoLox carrying case
1062965	GO <sub>2</sub> carrying case
1019439	WristOx ambulatory digital pulse oximeter carrying case
1007332	Oximeter carrying case, 920, 920M, and 920MP oximeters.

### Part number

#### Carts

1065724	UltraFill Cylinder Cart (MD15/MD22/ME24/ME36)
1074885	SimplyGo Mobile cart
900-100	Mobile cart For use with the EverGo and SimplyGo oxygen concentrators.

#### Extension cables

927	Extension cable, 3' For use with 920, 920M, and 930 oximeters.
1008130	Extension cable, 10' For use with 920 and 920M oximeters.

#### Filters

1038831	Compressor intake filter For use with EverFlo oxygen concentrators.
900-150	Air inlet filters, 6 per pk. For use with EverGo oxygen concentrators.
520	Micro disk filterE For use with EverFlo oxygen concentrators.
1017796	Inlet filter replacement kit For use with M10, M10600, and M10605 oxygen concentrators.
1015581	Kit, grommet, 10 pk.
H619	Air inlet filter replacement kits, 6 per pk. For use with M600 and M605 oxygen concentrators.
H620	Inlet filter replacement kits, 6 per pk. For use with 600, 605, M600, and M605 oxygen concentrators.
H621	Microdisk filter replacement kits, 6 per pk. For use with all Millennium oxygen concentrators.
H652	Filter cover for compressor kit For use with 600, 605, M600, and M605 oxygen concentrators.
H653	Filter felt for compressor kits, 6 per pk. For use with 600, 605, M600, and M605 oxygen concentrators.

#### Flow meters

H537-1	Stand-alone low flow meter kit For use with EverFlo oxygen concentrators.
H644	Cabinet integrated pediatric flow meter kit For use with 600, 605, and M600 (non-OPI units only) oxygen concentrators.
528	Locking flow meter kit For use with 600, 605, M600, and M605 oxygen concentrators.
1082784	5 LPM flow meter replacement kit For use with 600, 605, M600, and M605 oxygen concentrators.

### Part number

#### Gaskets

1007715	Gasket replacement kit For use with all Millenniums.
1007716	Gasket replacement tool kit For use with 600, 605, M600, and M605 oxygen concentrators.

#### Humidifier Accessories

1083699	Humidifier pouch
1101172	SimplyGo humidifier connecting tube kit
1101602	SimplyGo humidifier connecting tube kit and pouch

#### Miscellaneous

1118724	User Manual
H649	Caster brake kit For use with EverFlo oxygen concentrators.
920MPC	Charger stand Power cord not included. For use with 920M.
100-0339-00	External spring, single or 30 per case For use with 950 oximeter.
100-0338-00	Gripping insert For use with 950 oximeter.
1017984	Shoulder strap For use with GoLox.
1062966	Lanyard, black, 20" For use with GO2 oximeter
H654	Air inlet retainer kits, 10 per pk. For use with 600 and 605 oxygen concentrators.
1001684	Flow signal conditioner kit
1019440	Reusable wristbands, 10 per pk. For use with WristOx.
1019438	Reusable wristband extenders, 5", 10 per pk. For use with WristOx.
1015581	Silicone grommets, 10 per pk. For use with M10600, and M10605 oxygen concentrators.

#### Oxygen attachments

7314	Tubing adapters, 22mm x 22mm, 6 per pk.
312010	O <sub>2</sub> enrichment attachments, 10 per pk.
312710	O <sub>2</sub> enrichment attachment
1039642	Humidifier connector tube

### Part number

#### Oxygen valves

302418	Pressure valve
302423	Pressure valves, 5 per pk.
1000348	Oxygen valve

#### Power Supplies

1116819	SimplyGo Mini DC Power Supply - U.S.
1116818	SimplyGo Mini AC power supply - U.S.
1082664	SimplyGo Mini AC power cord - U.S.
1116830	SimplyGo Mini External Battery Charger - U.S.
1116816	Standard Lithium Ion battery
1116817	Extended Lithium Ion battery
1082662	Lithium Ion battery
1116830	SimplyGo Mini External Battery Charger - U.S.
1083692	SimplyGo DC power supply
1082661	SimplyGo AC power supply
1082664	SimplyGo Mini AC power cord - U.S.
1113902	SimplyGo Mini Airline cable
900-102	Rechargeable li ion battery For use with the EverGo oxygen concentrator.
900-103	Battery charger/recalibrator For use with the EverGo oxygen concentrator. For use with the SimplyGo and EverFlo.
900-121	Airline connector For use with the EverGo oxygen concentrator.
1007355	920MP NiMH rechargeable battery
900-104	AC power cord For use with the EverGo oxygen concentrator.
900-101	DC power cord For use with the EverGo (serial number < 109500)
900-120	DC power cord For use with the EverGo (serial number >= 109500)
H617	Power cord replacement kit, 60Hz For use with all Millenniums.
900-105	AC power supply For use with the EverGo oxygen concentrator.

## Oxygen accessories (continued)

### Part number

#### Reusable sensors

1037296 Soft sensor, small, 1M

1037297 Soft sensor, medium, 1M

1037298 Soft sensor, large, 1M

#### Sensor cables

1019444 Sensor adapter cable. For use with WristOx.

#### Sensor tape

940 Double-sided tape for 934 sensor, 100 per pk.

941 Double sided tape for 935 and 953, 100 per pk.

942 Overwrap tape strips, 100 per pk.

947 Posey wrap for 935 and 953 sensor, 12 per pk. (pictured)

954A Adult FlexiWrap tape strips for 953 sensor, 25 per pk.

954N Pediatric small FlexiWrap tape strips for 935 sensor, 25 per pk.

#### Sensors

953 Adult sensor, 44 lbs. or more  
Includes Flex sensor, 38mm, straight cable,  
25 Hydrogel tape strips, and Posey wraps,  
1 meter cable.

953-11 Adult sensor, 3 meter cable, 8'

934 Infant sensor, large toe, 4 to 44 lbs.  
Includes Flex sensor, 34mm,  
with FlexiWrap tape strips.

935 Pediatric small sensor, outstep of foot, 4 lbs. or less  
Includes Flex Sensor, 38mm, right angle cable,  
with 25 FlexiWrap tape strips and 12 Posey wraps.

936 Adult finger clip sensor, index finger, 66 lbs. or more

936P Pediatric finger clip sensor, index finger,  
18 lbs. or more

948 Adult ear clip sensor, lobe of ear, 88 lbs. or more

951 Reflectance sensor middle forehead, 66 lbs. or more

1019522 Finger clip sensor, adult. For use with WristOx.

\*\*Accessories are not separately billable to Medicare, except when used with patient-owned equipment. Other payers may reimburse separately for these items. Check with the specific payer.

# Home ventilation

Lightweight, versatile, and easy to use, Philips Respironics ventilation technologies are designed for use in the home, hospital and alternative care sites and provide invasive and noninvasive ventilator support for a wide range of adult and pediatric patients.

Not all products are available in all countries. Check with Philips Respironics customer service or your local distributor.

# DreamStation BiPAP AVAPS and S/T

Meeting patients' therapeutic needs

DreamStation ventilation solutions are designed to deliver effective and comfortable therapy so patients can experience an improved quality of life.

**DreamStation BiPAP AVAPS & S/T algorithms:**

- Simultaneously and dynamically treat hypo-ventilation\* and OSA in any ventilation mode
- Provide appropriate therapeutic support to meet the changing needs of patients over time

Trilogy100 and Trilogy200

# A market leader in versatility

Technologies that are designed to automatically adjust to changing patient needs

Lightweight, versatile and easy to use, Trilogy ventilators are designed for use in the home, hospital and alternative care sites and provide invasive and noninvasive ventilator support for a wide range of pediatric and adult patients. They combine Auto-Trak and AVAPS technologies with advanced flow triggering and leak compensation features that allow for a more sensitive delivery of therapy. Trilogy also incorporates mouthpiece ventilation (MPV). A 'kiss' trigger detects when a patient engages and disengages from the mouthpiece to deliver on-demand ventilation. It combines with an optional MPV support system to enhance patient ease of use.

- Key benefits**
- Mouthpiece ventilation (MPV)
  - Pressure support up to 40 cm H<sub>2</sub>O
  - AVAPS-AE
  - Adjustable AVAPS
  - Auto-Trak and Sensitive Auto-Trak
  - On-screen waveforms

1118840	MPV Replacement Straw Kit (10pk)	
1040390	Trilogy, O2 quick-disconnect insert, 2 pk	
1021671	Test lung	
1045587	Inlet airpath assembly	

Under Medicare, all parts and accessories are included in the monthly rental of the device and are not separately billable. Supplies may be separately billable for patient-owned ventilators. Consult the payer policy manual for specific details.

Trilogy accessories are separately billable only when the ventilator is patient owned.

# Airway clearance

For use by caregivers and patients, in the hospital or in the home, CoughAssist T70 offers a gentle and more comfortable alternative to traditional suctioning methods.

Not all products are available in all countries. Check with Philips Respironics customer service or your local distributor.

## Flexible therapy that brings more comfort to your patient's airway clearance

CoughAssist T70 is a noninvasive therapy that consistently removes secretions in patients with an ineffective ability to cough. It clears secretions by gradually applying a positive pressure (insufflation) to the airway and then rapidly shifting to negative air pressure (exsufflation). This in-exsufflation shift in pressure creates a high expiratory flow that simulates a deep, natural cough. Instead of introducing a suction catheter into the airway, air is delivered noninvasively through a facemask, a mouthpiece, or through an adapter that allows the device to function with or without an endotracheal or tracheostomy tube.

### Key benefits

- Digital display and push button controls
- AC, DC and optional battery power options
- Cough-Trak automatic sensitivity
- DirectView data management

Accessories are not separately billable to the Medicare program, with the exception of replacement circuits. Consult your local Medicare DME MAC local coverage determination (LCD) for details. Commercial insurance plans may provide separate coverage for accessories. Consult insurance company policy manual for more information.

# Value-added programs

Philips Respironics offers a broad array of programs aimed at helping to maximize your growth and operational efficiencies. From compliance and resupply to training and warranties, we provide a spectrum of unique programs focused on facilitating success for you and your patients.

Not all products are available in all countries. Check with Philips Respironics customer service or your local distributor.

## Device programs

### **Flex Promise program**

Our Flex Promise Program is Philips Respironics' commitment that if any patient is noncompliant on any of our Flex technologies, upon return of the unit with Flex technology, we will apply a 100% credit of the corresponding unit purchase price toward the purchase of a Philips Respironics bi-level device with Bi-Flex.

### **Bi-level Rescue program**

This program is intended to help patients continue their PAP therapy when they are not able to tolerate standard treatment.

### **Extended Warranty program**

The Extended Warranty supports all DreamStation devices and adds three years of coverage to the standard two-year warranty – providing five years of protection on a DreamStation device or humidifier against unexpected repair costs and shortening the time the device is out of service.

### **DreamStation Non-warranty Service program**

For devices not covered under warranty, the DreamStation Non-warranty Service Program offers a simple two-tiered approach to repair costs that helps to accelerate the return of the repaired unit to the patient and reimbursement turnaround times.

## Mask programs

Ask about our 30 day mask promise program.

## Ventilation programs

### **Ventilation Promise program**

Progressive diseases like COPD and ALS have one thing in common – a patient's ventilator needs will change over time. We want to make it easy for you to transition your patients to higher level ventilator devices as their needs become more challenging. To enable you to easily transition patients to other devices as their diseases progress, the Ventilation Promise Program will provide a credit equal to the purchase price of any Philips Respironics' DreamStation device to be applied toward the purchase of a BiPAP AVAPS or Trilogy ventilator. Certain terms and conditions apply.

### **One COPD program**

One COPD takes a patient-centric approach—based on clinical research and backed by Philips devices, support, and expertise. Technology, education, and connectivity all work together.

# Medical education

For respiratory therapists, sleep technicians and nurses, Philips Respironics CEU-accredited programs target noninvasive and invasive ventilation, oxygen, and sleep therapy, and are focused on your continuing education requirements.

Not all products are available in all countries. Check with Philips Respironics customer service or your local distributor.

## CEU programs

### **Mask Impact on Effectiveness and Adherence to Therapies** 1 CEU, AARC, AAST, CABRN

A lecture to learn how to select the best mask to improve patient experience and adherence to the therapy. Upon completing this presentation, the participant will be able to:

- Describe why a patient needs to be compliant to CPAP therapy
- Discuss the challenges a patient in being compliant to their CPAP therapy.
- Review how to choose the a mask depending upon the different types of patients/masks and Explain mask impact as it changes effectiveness and adherence to therapy

### **Advanced Algorithm Clinical Applications** 1.5 CEU, AARC, AAST, CABRN

The main goal of this presentation is to discuss the advance algorithms – BiPAP autoSV Advanced and BiPAP AVAPS. It will also review how the algorithms work, how they are titrated, and the patient populations are best served by each algorithm. Upon completion of this presentation the participant will be able to:

- Differentiate between BiPAP AVAPS and BiPAP auto SV Advanced
- Identify the patient population that will benefit from BiPAP AVAPS
- Describe the titration protocol for BiPAP AVAPS
- Discuss why the patient population that will benefit from BiPAP AVAPS will not benefit from BiPAP autoSV Advanced
- Identify the patient population that will benefit from BiPAP autoSV Advanced
- Describe the titration protocol for BiPAP autoSV Advanced
- Discuss why the patient population that benefits from BiPAP autoSV Advanced will not benefit from BiPAP AVAPS

### **Guidelines in Titration: CPAP, Bilevel, Servo Ventilation and volume assured pressure support ventilation** 1.5 CEU, AARC, AAST, CABRN

This presentation is to review the current titration guidelines for the treatment of OSA and more complex breathing disorders during sleep. The ultimate goal of this presentation is to achieve long-term adherence to therapy for patients with sleep disordered breathing. Upon completing this presentation, the participant will be able to:

- Discuss the CPAP titration protocols used for patients with Obstructive Sleep Apnea (OSA)
- Review how and when to change a patient from CPAP to Bi-level therapy for OSA
- Review how the Auto CPAP and Auto Bi-level work for OSA
- Discuss how Bi-level therapy with a back-up rate is titrated for patient's needing non-invasive ventilation
- Review why BiPAP AVAPS is a good alternative to Bi-level therapy with a back-up rate

- Review the titration protocol for BiPAP AVAPS
- Identify the patient population for Servo-ventilation (SV)
- Review the titration protocol for BiPAP autoSV Advanced

### **Home Ventilation Workshop** 2 CEU, AARC, CA BRN

This workshop provides additional information and knowledge about the clinical application of the Trilogy100 and Trilogy200 life support ventilators.

- Describe indications for use of home ventilators.
- Discuss the different circuit options, breath types and modes in home ventilation.
- Explain review features available, different types of alarms and how to troubleshoot problems.
- Discuss the unique mouthpiece ventilation.

### **The Ins and Outs of Airway Secretion Clearance Using Mechanical Insufflation-Exsufflation (MI-E)** 1 CEU, AARC, CA BRN

This lecture has been designed to increase clinical application knowledge of the mechanical insufflation-exsufflation (MI-E) device on airway secretion clearance.

- Describe the indications, contraindications and warnings/cautions for the use of mechanical insufflation-exsufflation (MI-E) techniques
- Identify the advantages of the noninvasive use of mechanical insufflation-exsufflation (MI-E) technique over invasive airway clearance
- Discuss MI-E in combination therapy
- Discuss recommended treatment plans

### **Algorithms and Comfort Features to Promote Long-Term Adherence to PAP Therapy** 1 CEU, AARC, AAST, CABRN

This will cover the current disease processes that can be treated with servoventilation

- Describe the basic algorithms for CPAP, CPAP auto, BiPAP, BiPAP auto, BiPAP AVAPS, BiPAP autoSV Advanced
- Identify the patient populations that may benefit from these algorithms
- Review the comfort features such as flex, heated tube, ramp, etc that may encourage long term adherence

### **COPD Management Workshop: Reducing Readmissions** 1 CEU, AARC, CA BRN

This workshop is designed to help caregiver manage the COPD patient.

- Describe the basic algorithms for CPAP, CPAP auto, BiPAP, BiPAP auto, BiPAP AVAPS, BiPAP autoSV Advanced
- Identify the patient populations that may benefit from these algorithms
- Review the comfort features such as flex, heated tube, ramp, etc that may encourage long term adherence

## CEU programs (continued)

### **COPD Management Workshop: Part 2**

1 CEU, AARC

This is a continuation of WS 1 and will cover the personalized care of the COPD patient.

- Discuss communication and education of a patient.
- Recognize the common barriers found in adult learning and discuss strategies to overcome them
- Discuss resources available for COPD Patients.
- Discuss the different kind of medicines commonly used in COPD management.
- Discuss the required elements of personalized medication care for COPD patients.
- Provide an overview of the available oxygen delivery equipment to meet their needs.
- Explain how a pulmonary rehabilitation program may improve a COPD patient's quality of life
- Discuss signs and symptoms of malnutrition and describe its effect of on COPD patients
- Describe various methods of tobacco cessation
- Discuss what is an exacerbation
- Review early signs of an exacerbation
- Review why a patient may require hospitalization

### **Pediatric Sleep Disordered Breathing and Ventilation**

1 CEU, AARC, AAST, CA BRN

- Define normal sleep architecture from infancy to adolescence.
- Identify the risk factors for poor quality sleep in the pediatric population
- Restate the prevalence of SDB and Ventilatory diseases in children.
