

PEDIATRIC MOBILITY SOLUTIONS

MOBILITY SOLUTIONS THAT GROW WITH YOUR CHILD

The Nuprodx Mobility pediatric line of chairs and slider systems provide safety and convenience in and around the bathroom for children with disabilities and their caregivers. By reducing the number of manual transfers, Nuprodx helps users and caregivers remain safe when navigating bathroom toilets, tubs and showers. With its modular construction, the pediatric line is designed to grow with your child. With minor adjustments and/or updates to the seat and backrest cushions, you can enlarge the chair as the user grows, saving thousands of dollars compared to investing in a whole new system.

Key Benefits

- Patented bridge technology* improves safety by eliminating the need for transfers into tubs and showers.
- Eliminates the need for expensive remodeling to make virtually any bathroom safer and more accessible.
- Adjustable and modular design allow the systems to grow with your child.

**US Patent 7,690,055 B2*

SAFETY IN THE BATHROOM

Nuprodx Mobility provides children with disabilities and their families with safety and convenience in and around the bathroom. With just one bedside lateral transfer, Nuprodx users are able to move around the home freely, avoiding the need to transfer onto toilets or into tubs in the dangerous bathroom environment.

Just one bedside lateral transfer

Easy transport

Slides over bridge and into tub to eliminate transfer

Rolls over toilet to eliminate transfer

SOLUTIONS FOR ANY BATHROOM

“A \$3000 solution to a \$30,000 problem” - Cara Colgin-Smith, Southwestern Medical Reps

Tub Slider system
(MC6000TiltPed shown)

Shower Slider System
(MC6000RSTiltPed shown)

Nuprodx Mobility has a solution for just about any bathroom environment. Use your existing tub or shower without the need for an expensive remodel. The patented connector bridge allows users to slide over the tub wall and into the tub without a manual transfer. Shower sliders fit through narrow shower entries and over step-in shower thresholds. For those with barrier-free showers, Nuprodx offers chairs that can be easily rolled in and out of the shower.

PEDIATRIC PRODUCTS

Nuprodx Mobility solutions offers a number of options for children, with the most innovative design and highest quality construction on the market.

- All the benefits of Nuprodx adult systems, including durability, stability, and fewer and safer transfers.
- Adjustable seat width and depth to grow with a child.
- Modular design allowing for updates to seat and backrest cushions for more significant growth and changes in size.

MC6000TiltPed: Fully Loaded

A center-of-mass, tilt-in-space, full-featured model with head support, providing maximum comfort and stability.

MC6000Leckey: Mesh Comfort

Tub-slider system with unique mesh chair that provides the ultimate comfort for showering.

MC4000TiltPed: Roll-in Comfort

Designed to be rolled into barrier-free showers with caregiver assistance, a center-of-mass, tilt-in-space, model with head support for maximum comfort.

OUR MISSION

Nuprodx Mobility improves safety in and around the bathroom for seniors and people with disabilities, fostering a more independent life. Designed and made in the USA, Nuprodx Mobility delivers the highest quality and the most complete solutions for in-home use and travel.

OUR HISTORY

Nuprodx founder Bruce Hammer understands the need for mobility solutions as well as anyone. Bruce, a former professional motorcycle racer, crashed during a race in 1982, breaking his neck to become a full-time wheelchair user. After designing products to make his life easier, Bruce founded Nuprodx in 1998 to offer solutions to others. Since then, Nuprodx has grown to produce the most innovative and highest quality in-home and travel solutions on the market.
