

USP 800 protection, head to toe.

Minimize your risk to chemical exposure.

The risk is real. Are you ready for the new standard?

There's no safe level of exposure to hazardous chemotherapy drugs, but the right personal protective equipment (PPE) can minimize the risk. From face masks and gowns to gloves and footwear, count on our USP 800 recommended PPE to protect your team. So they can handle chemicals with confidence.

Read the new USP 800 guidelines at usp.org.

8 million

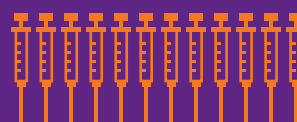

U.S. healthcare workers
potentially exposed to
hazardous drugs annually.¹

More than

12 billion

doses of hazardous drugs
are handled by US providers
each year.²

Outfit your staff for safety.

All recommendations below are based on USP 800.*

Gloves: Wear two pairs of disposable nitrile gloves tested for use against chemotherapy drugs per ASTM D6978.
