WHAT IS THE

MOBILE STAIRLIFT GENESIS?

The Mobile Stairlift Genesis is your cost effective solution to taking the stairs as a wheelchair user.

This medical stair chair is designed to help transport riders up and down stairs safely and efficiently.

It's lightweight, portable and ready to use straight out of the box. Because The Genesis requires no costly track installation, you regain a sense of normalcy without breaking the bank, or your home's architecture.

With the Mobile Stairlift Genesis, your using a wheelchair stops limiting your lifestyle — you don't need to move to a single-story home and it's so easy to use that almost anyone can help you navigate up and down the stairwell.

Regain access at home and while out, with the Mobile Stairlift Genesis.

MOBILE STAIRLIFT GENESIS IN ACTION

Operate the stairlift safely with the help of just one person.*

***We recommend two assistants for maximum safety.**

It's ready to go straight out of the box and doesn't require pre-installed tracks.

CHAIR MOTOR

BATTERY

We take your safety seriously. The Mobile Stairlift has a safer footbrake design and the anti-slide design of the crawlers is seconded by the highest quality materials.

FOOT BRAKE

LOCK REAR WHEELS

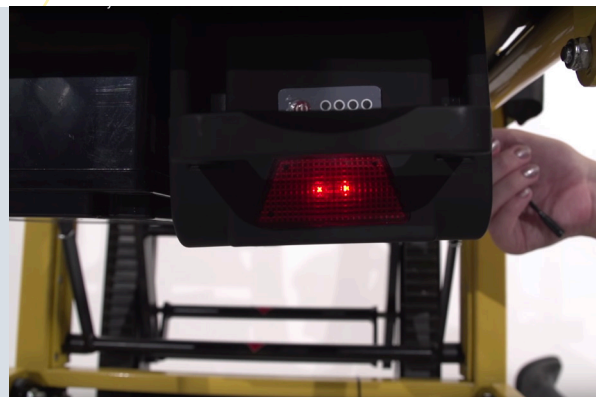

The Mobile Stairlift Genesis is easily transportable. Fold it up and put it in a car to take it wherever you want to go.

Use it at home in your multi-story house. It carries up to 400 pounds as many as 120 flights of stairs on a single charge, so you'll never be stranded.

Because it's lightweight, battery-operated and portable, you can also use it in public places, like the theater, and quickly regain your social life.

ACCREDITATIONS

The Mobile Stairlift Genesis is FDA registered and approved, as well as CE & ISO certified. It also comes with a 7-day money back trial. The Genesis has a 6 month warranty on the entire chair for any damage caused by manufacturing malfunction, and a lifetime warranty on the frame welds.
