

INVACARE® MATRX®  
**FLO-TECH**  
CUSHION

---

---

The **Invacare® Matrx® Flo-tech™ Cushion** uses a combination of molded foam and dual layer fluid sacs to provide the highest level of skin protection for individuals with high risk of skin breakdown. The Fit Kit components are available to address individual postural requirements.

**Features and Functional Benefits**

**Outer cover** - Moisture resistant and breathable. Includes non-slip base, hook and loop fastener strips and a lifting strap. Expandable cover facilitates use with Fit Kit components

**Platilon liner** - An additional layer of moisture protection

**Fluid sac** - Unique dual-layer fluid in ischial/sacral area to help prevent bottoming out. Non-temperature sensitive fluid resists freezing. No kneading or maintenance required

**Foam base** - High quality, comfortable, resilient foam base. Molded in hook and loop fastener strips for secure attachment of Fit Kit components. Pre-ischial contour, trochanteric support and sacral support

**Fit Kit Components**

**Tapered wedges** - Accommodates mild pelvic rotation, mild hip flexion discrepancies or increase adductor contour

**Fluid supplement** - May be placed to provide pelvic obliquity accommodation or increased sacral/ischial immersion

**Pelvic obliquity build-up** - Accommodates obliquities up to 1". For correctable obliquities use under low side of pelvis and for fixed obliquities use under high side of pelvis

**Adductors** - Front: provides increased adductor contour to thighs. Rear: provides increased adductor contour to hips

**Seat wedges** - Increases degree of pre-ischial and contour angle to help prevent sliding

**Hemi wedge** - May be used to provide increased support to one lower extremity – useful for clients who use foot propulsion or with hip flexion limitations

**Abductor** - Small: provides .75" increased height of abductor contour. Large: provides 2" increased height of abductor contour

**Tapered wedges** - Accommodate mild pelvic rotation, mild hip flexion discrepancies or increase adductor contour

**Fluid supplement** - May be placed to provide pelvic obliquity accommodation or increased sacral/ischial immersion

- 1. Pelvic Obliquity Build-Up
- 2. Adductor (Rear)
- 3. Adductor (Front)
- 4. Abductor (Large)
- 5. Seat Wedges
- 6. Hemi Wedge
- 7. Abductor (Small)
- 8. Tapered Wedges
- 9. Fluid Supplement
